Success Coaching

Center for Academic Success and Transition

What is Success Coaching?

A collaborative support service designed to help students build the skills, strategies, and confidence they need to succeed.

Success Coaching is *not*:

- Academic advising
- Mental health counseling
- Subject area tutoring

What Do Success Coaches Do?

Success Coaches help students develop:

- Time management and organization skills
- Study strategies
- Motivation and follow-through
- Clear, achievable goals

When to Make a Referral

Consider referring students who:

- Are struggling academically
- Need help with time management
- Seem overwhelmed, or lack motivation
- Want to strengthen current success skills

Success Coaching is not just for students who are struggling — it's for students who want to grow.

Referral Process

- Submit an online referral: https://www.missouristate.edu/AcademicSuccess/student-academic-assistance.htm
- A Success Coach will reach out to the student within 1-2 business days
- The student schedules a meeting directly with the Success Coach

What Students Can Expect

- 30–45 minute meetings (virtual or in person)
- Clear action steps
- Encouragement and accountability
