

Post Baccalaureate Teacher Certification Chemistry – Categorical/Unified Science (9-12)

revised 8/23/2011

Career Preparation

Missouri State University's Education Program, the largest and only one of its kind in Missouri, provides experiences that prepare students to become effective teachers. A comprehensive field-based component is part of this exciting program. Teachers who have completed a Missouri State University (MSU) Education program are generally considered to be highly qualified, successful classroom teachers. High-need areas currently include: Special Education, Math, Science, and Foreign Language. Post-Baccalaureate students who have had significant experience either in the classroom or with children are often considered more qualified and are frequently hired before those without the experience.

Academic Program

The Post-Baccalaureate (Post-Bac) Education programs require satisfactory completion of competencies outlined by the Department of Elementary and Secondary Education (DESE). MSU offers several alternative routes to teacher certification which include: Post-Baccalaureate, Masters, and Provisional certification. All programs rely on coursework completed within an initial Bachelor's degree. Professional Education courses are sequenced to provide both study in the university setting and practical experience in classrooms.

Courses

Students pursuing Post-Bac Teacher Certification at Missouri State need to submit original official transcripts from all universities, colleges, and institutions previously attended. Prior coursework will be evaluated and credit will be granted and applied for all equivalent certification requirements.

An Individualized Program of Study (IPS) will be provided to the student. The IPS is reviewed during an advising session. If a course was not initially determined to be equivalent, but may have provided the competencies required for certification, the student may submit a course description/syllabus for re-evaluation.

Faculty and Staff Support

The Teacher Certification and several faculty offices are located in Hill Hall. Faculty members are actively involved in teaching, research, and service activities at the local, state, and national levels. While faculty may informally advise students, the Teacher Certification Advisement staff will provide the support and official advisement for all Post-Bac students pursuing teacher certification.

Facilities

Missouri State University is fortunate to have Greenwood Laboratory School located on campus. Greenwood, a K-12 facility, provides students in the College of Education with first-hand experience in observing and working with students. The technology labs, located in Hill Hall, have the most recent innovations in instructional technology and are available for use by Education students.

Special Services

The University and the College of Education are committed to the success of each student. Career Services, in cooperation with the College of Education, takes an active role in assisting Education students by providing information about teaching opportunities. Students are encouraged to meet with Career Services for job search assistance.

Special Requirements

Course #	Title	Credits
COM115	Fundamentals of Public Speaking	3 hours
PSY121	Introductory Psychology	3 hours
CIS101	Computers for Learning	2 hours
or		
CSC101		
		Total 8 hours

Professional Education

Course #	Title	Credits
EDC150	Introduction to Teaching	1 hour
SCI214	Introduction to Science Teaching in the 21 st Century	1 hour
SEC302	General Methods of Instruction in the Middle and Secondary Schools	4 hours
EDT365	Instructional Apps/Technology and Media	3 hours
or		
EDT662	Educational Applications of Computers for Teachers	
SCI314	Techniques and Technology in Science Laboratory Teaching	3 hours
PSY360	Educational Psychology	3 hours
or		
PSY710	Psychology of Education	
SPE340	Educational Alternatives for Exceptional Students	2 hours
RDG474	Reading and Writing in the Content Fields	2 hours
EDC350	School and Society	3 hours
SCI414	Teaching of Secondary School Natural Sciences	3 hours
SCI493	Supervised Teaching	6 hours
SCI494	Supervised Teaching	6 hours
		Total 37 hours

Middle School (5-9) Option

MID421	Philosophy and Organization of Middle School Curriculum	2-3 hours
or		
MID810	The Middle School – The Jr. High	
MID439	Middle School Instructional Strategies	3 hours
or		
MID725	Advanced Theory and Practice in the Teaching of Early Adolescents	
MID425	Middle School Curriculum	2 hours
RDG318	Foundations of Reading Instruction	3 hours
EEM305	Field Experiences in Education	2 hours
		Total 12-13 hours

Content Area

Course #	Title	Credits
Choose one set below		
CHM160	General Chemistry I	14 hours
CHM161	General Chemistry I Laboratory	
CHM170	General Chemistry II	
CHM171	General Chemistry II Laboratory	
CHM200	Essentials of Organic Chemistry	
or		
CHM342	Organic Chemistry I	10 hours
CHM343	Organic Chemistry II	
or		
CHM342	Organic Chemistry I	10 hours
CHM344	Organic Chemistry II	

Need All of the Following:

CHM435	Investigation in Chemistry for Teachers	1 hours
CHM302	Introduction to Analytical Chemistry	5 hours
CHM352	Introduction to Biochemistry	3 hours
CHM460	Environmental Chemistry I	3 hours
CHM505	Fundamentals of Physical Chemistry	4 hours
PHY123	Introduction to Physics I	4 hours
BIO121	General Biology I	4 hours

Related Requirements

PHY123	Introduction to Physics I	4 hours
BIO121	General Biology	4 hours
GLG110	Principles of Geology	4 hours
or		
GLG171	Environmental Geology	
MTH287	Computational Calculus with Analytic Geometry I	3 hours

History/Philosophy of Science

SCI505	Intellectual Foundations of Science and Technology	3 hours
--------	--	---------

Complete All Requirements in ONE of the Following Areas:

Categorical Chemistry

CHM375	Inorganic Chemistry	3 hours
--------	---------------------	---------

Unified Science-Chemistry

CHM463	Environmental Analysis	1 hour
BIO122	General Biology II	4 hours
GLG110	Principles of Geology	4 hours
GRY135	Atmospheric Science	4 hours
PHY124	Introduction to Physics II	4 hours

Categorical Total 52-60 hours

Unified Total 70-74 hours

Praxis II Test #0245 required
