WHEREAS the Student Government Association of Missouri State University is the official
voice of the student body; and

RECOGNIZING that the Student Government Association Administrative and Information
Services (AIS) Committee has been researching ways to improve student experience with the
MSU Mobile application; and

NOTING that other vendors such as Starbucks, Panera, Taco Bell, Jimmy Johns, and others use
a mobile application to allow users to pay for products on their mobile devices at the register of
the vendor; and

FURTHER NOTING that the use of these mobile applications at registers speeds up the
process of making a transaction; and

RECOGNIZING that Missouri State has over 22,000 students that attend classes on the
Springfield campus, and that the dining facilities and vendors in the Plaster Student Union are
the central areas on campus that these 22,000 students use the most to eat on campus; and

FURTHER RECOGNIZING that if Missouri State University would implement an addition to
the MSU Mobile application that would integrate the BearPass ID in a digital form that this
would speed lines up at dining facilities and vendors by having students scan their individual
barcode associated with their BearPass on their mobile application rather than searching
through their personal belongings to find their student ID; and

BE IT RESOLVED that the Student Government Association of Missouri State University
urges Computer Services, Residence Life and Dining Services, and Web and New Media to
implement an integrated BearPass ID section of the MSU Mobile app with associated
individual barcodes that students can scan when checking out at dining facilities and vendors
on campus;

AND BE IT FURTHER RESOLVED that this digital version of the BearPass ID will require
students to log on using their BearPass login and password ensuring security of the application
and that there will be a picture of the student on the application to verify the identity of the
person that is using the barcode; and
BE IT YET FURTHER RESOLVED that an electronic copy of this resolution be sent to Jeff Morrissey, Chief Information Officer; Kevin Piercy, Coordinator of User Support; Jonny Carter, Web Systems Analyst, Sara Clark, Director of Web and New Media; Chad Killingsworth, Assistant Director of Web and New Media; Tony Hein, Director of Dining Services; Ken McClure, Vice President for Administrative and Information Services, and Matt Morris, Associate Vice President for Administrative and Information Services.
