

Three-Year Graduation Plan – Psychology (BS degree)

A 3-year graduation plan does not take into account dual credit or transfer credit that a student may bring with him or her upon admission to MSU. The point here is that it is possible to graduate in less than four years.

A 3-year graduation plan is **not** designed for every student and it assumes: (1) no remedial coursework is required, (2) the student does not fail any classes, (3) the student does not change either the major or minor, and (4) the student is willing to take classes each summer.

With a non-comprehensive BS degree, an 18-hour minor is required.
