REPORT FROM FACULTY HANDBOOK REVISION COMMITTEE—DR. RICH BIAGONI
Dr. Rich Biagoni, Faculty Handbook Revision Committee Chair, presented the Committee’s changes to the Handbook as listed below and answered questions from the Senate.

Senator Satzinger moved to adopt the FHRC’s report and upon Board of Governor’s approval, the changes should go into effect immediately.

The report stated that the FHRC recommends the following changes to Section 5.2 Salary Procedures and Section 5.11 Off-Campus Teaching.

Current Handbook language with changes:

5.2. Salary Procedures

Full-time faculty (including nonvisiting faculty) and staff will be eligible for annual salary increments derived from the above pool, allocated by the cost center head on the basis of individual performance and considerations of internal and external equity. Performance-based salary adjustments shall be based on annual reviews as described in Section 4.6.4. However, this component of salary increases will be suspended when the size of the raise pool is not greater than 2% of the salary base. When the pool is at or below 2%, across-the-board raises will be given. Policy and procedural details for across-the-board raises will be based on recommendations from the Executive Budget Committee to the President and will be posted by the Office of the Provost.

Procedures for required performance evaluations as one basis for the determination of salary increments shall be conducted at the department level by a departmental personnel committee. Each faculty member will be assigned performance ratings on a numerical scale from 1-5 for teaching, research, and service. A composite rating will then be established for each faculty member by the Department Head utilizing performance ratings and weights that have been determined by department procedures consistent with parameters established by colleges and universities for teaching, research, and service. Composite ratings will be reviewed and approved by the college Dean.
Each cost center shall use a compensation matrix approved by the Provost, Vice President or Chancellor to guide its allocation of individual raises. All compensation matrices shall be subject to the advice and monitoring of a Compensation Committee, appointed by the President, who shall seek recommendations from the Faculty Senate Executive Committee regarding its composition. After seeking formal input from the Faculty Senate, the Compensation Committee shall make periodic recommendations to the President for necessary adjustments to the compensation plan.
