

Working with Families Experiencing Domestic Violence

Your thoughtful responses to this survey will help us identify training materials and techniques that work well and those that need refinement. We appreciate your feedback! At the end of the survey we ask you to create an "ID Code" using the last four digits of your Social Security number and the first two letters of your last name. Please be assured that **we have no interest in identifying you and your particular responses**. The reason for the ID Code is that you will be asked to complete a future survey, and we want to be able to link this one with that one. All surveys will be analyzed and reported as a body of information. Analysis is being done at the University of Kansas School of Social Welfare, and they do not have a list of names that could be linked to this survey in any way.
