## What's New

### Software Updates and Hardware Upgrades

- Latest release of content management system software
- New web and database server machines with faster processors and twice the memory
- User's name and email address now automatically populated

### Freeform Content Editor

- Only one paste button
- No longer a separate "Paste from Word"
- All content is automatically cleansed
- Selected asset manager folder is retained
- Save and exit are now separate functions
- Save and continue editing as often as desired
- Close the window to end editing
- You will be prompted if unsaved changes are present

# WordPress New Features and Best Practices

## Email Notifications for Submitted and Published Pages

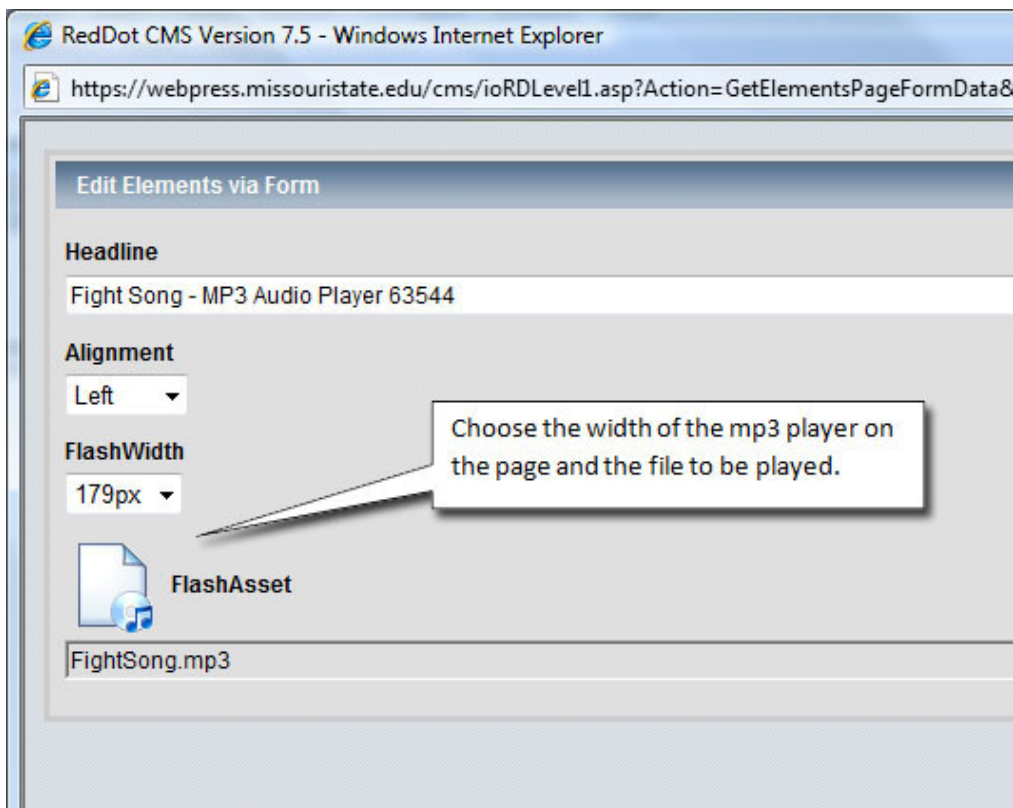

- With email addresses now present editors are receiving email notifications of pages submitted to workflow or published
- Three options for users
  1. Process emails from your Inbox
  2. Establish alternate destination folder as described in *Follow in Create a Folder and Rule to Send Web Press Emails to a Certain Folder in Outlook* (<https://webpress.missouristate.edu/CreateEmailRule.htm>)
  3. Cease being an editor for that web site

## Best Practices and Tips

### Add an MP3 Audio Player Page

<https://webpress.missouristate.edu/MP3Audio.htm>

- Available in General Pages group
- Load mp3 file into asset manager
- Specify alignment on page
- Specify width of player display

# WordPress New Features and Best Practices

## Add a YouTube Video Page

<https://webpress.missouristate.edu/YouTubeVideo.htm>

- Available in General Pages group
- Upload video to YouTube.com
- Specify YouTube Video ID
- Specify tagline alignment
- Specify video player alignment
- Specify player size
- Specify tagline

Edit Elements via Form

Headline  
Solar Oven - YouTube Video 63545

YouTube video clip ID. Use only the characters following the last = sign. Example: Given the following YouTube URL you would use hnX-CrCvxkQ  
<http://www.youtube.com/watch?v=hnX-CrCvxkQ>

ehdJBZ19vPQ

Tagline alignment  
Left

Video player alignment  
Left

Video player size  
A. Triple Width Column (100%, 425 x 344)

Custom video height (overrides default)

Tagline for movie  
Students for a Sustainable Future - Solar Oven

The Youtube video clip ID is the short code after the "v=..." in the URL.
