Exceptions to the Required Student Fees Schedule

The Provost or designee has the authority to approve exceptions to the above required student fee schedule for specific course sections. These exceptions will generally be made for sections of courses that do not require students to come to the campus for more than a short period of time.

Fee Exchange for Section Changes after the Change of Schedule Period

Students may drop a section and add a different section of the same course during the same part of term and receive an even exchange of fees provided the section add and drop were processed during the same transaction. Students who drop and add a section of the same course but in a different part of term do not qualify for this fee exchange. Students who drop a special topics course and add the same course but with a different topic do not qualify for this fee exchange.

Refunds for Classes with a term* of 20 days or more (except for standard sessions listed above):

The refund for classes with a term* of 20 days or more is 100% if the class is dropped before the end of the second day of the term (even if the class does not meet on the second day of the term). Additional refund periods are proportionate to the refund periods described above for full semester classes. Refund deadlines are calculated as follows:

- 75% refund = 0.133 times the length of term
- 50% refund = 0.267 times the length of term
- 25% refund = 0.533 times the length of term

Standard rounding rules apply (e.g., the 75% refund deadline for a 25-day term is 0.133×25 or 3.325, which will be rounded down to day 3; the 50% refund deadline for a 25-day term is 0.267×25 or 6.675, which will be rounded up to day 7). The Office of the Registrar maintains refund deadline dates for each class length.

*For classes that are not full semester or block classes, refunds are based on the 'length of term.' For those classes, the 'term' begins with the start date of the class and ends with the end date. The length of term is the number of days in that period, including the start and end date but excluding weekends and holidays when classes are not in session.

Refunds for Dual Credit Classes

If a student drops or withdraws from a fall-only dual credit class, the refund shall be as follows:	
On or before the Friday of the eighth week of the semester	100%
Between the Friday of the eighth week and the Friday of the twelfth week of the semester	50%
Between Friday of the twelfth week of the fall semester and the last day of full semester fall classes	No refund with "W"
Last day of full semester fall classes	Last day to drop with a "W"

If a student drops or withdraws from a full-year dual credit class, the refund shall be as follows:	
On or before the Friday of thirteenth week of the fall semester	100%
Between the Friday of the thirteenth week of the fall semester and the Friday of the third week of the spring semester	50%
Between Friday of the third week of the spring semester and the last day of full semester spring classes	No refund with "W"
Last day of full semester spring classes	Last day to drop with a "W"

If a student drops or withdraws from a spring-only dual credit class, the refund shall be as follows:	
On or before the Friday of the eighth week of the semester	100%
Between the Friday of the eighth week and the Friday of the twelfth week of the semester	50%
Between Friday of the twelfth week of the semester and the last day of full semester spring classes	No refund with "W"
Last day of full semester spring classes	Last day to drop with a "W"

If a student drops or withdraws from a summer dual credit class, the refund shall be as follows:	
On or before the Friday of the fourth week of the semester	100%
Between the Friday of the fourth week and the Friday of the sixth week of the semester	50%
Between Friday of the sixth week of the semester and the last day of summer full semester classes	No refund with "W"
Last Day of summer full semester classes	Last day to drop with a "W"

Requests to deviate from the required student fees refund schedules should be submitted to the Office of the Registrar with appropriate approval.

Student Services Fee Refunds

One hundred percent (100%) of Student Services Fees will be refunded for full semester, first block and second block classes dropped on or before the fifth day of the semester; for classes with a duration of 19 days or less dropped on or before the first day of the term; for classes with a duration of 20 days or more (but not first block, second block or full semester) dropped on or before the second day of the term.

For classes dropped outside the above deadlines, student services fees are recalculated based on the credit hours in which a student remains, plus the percentage of the dropped credit hours for which the student remains liable (liability is based on the tuition refund percentage period in place at the time of the drop).

Example 1: Student originally enrolls for the fall semester in 12 on-campus credit hours and is assessed full student services fees (i.e., the amount for seven or more credit hours). During the 50% refund period, the student drops six credit hours. The amount that the student owes following the drop is recalculated to include the six remaining credits plus 50% of the six credit hours dropped (or three credit hours), which totals nine liable credit hours. In this example, there is no change in student services fees.

Example 2: Student originally enrolls in six on-campus credit hours and is assessed student services fees for those credit hours. During the 25% refund period, the student drops three credit hours. The amount the student owes following the drop is recalculated to include the three remaining credits plus 75% of the three dropped credit hours (2.25), which totals 5.25 liable credit hours. Student services fees will be assessed based on six liable credit hours (credit hours are rounded up).

Example 3: Student originally enrolls in 12 on-campus credit hours and is assessed full student service fees (i.e., the amount for seven or more credit hours). During the 75% refund period, the same student drops all 12 credit hours. Student services fees are recalculated to charge for the 25% liability of the 12 credit hours dropped, which is three liable credit hours. Student services fees will be assessed based on three liable credit hours. Thus, the student will receive a credit (refund) for the difference between the student services fee for three hours and seven hours.

Supplemental Course Fee Refunds

If a student drops during the 100% refund period for tuition (as indicated above), then 100% of supplemental fees will be refunded (with the exception of fees that have already been expended on the part of the student). No refund of supplemental or section fees is issued for students who drop after the 100% refund period.

Refunds for Recipients of Federal Aid

For students who are recipients of Federal Title IV student aid, refunds will be made in accordance with all applicable federal regulations.

Exceptions to the Required Student Fees Refund Policy

Student-Initiated: Exceptions to the fee refund policy are generally granted only for documented exceptional circumstances that were beyond the control of the student (e.g., medical emergency or death in the immediate family) or when a documented University error has occurred. A change in assessment can only be adjusted or prorated to a refund percentage rate already established in the published University tuition and required fees schedule (100%, 75%, 50%, or 25%). The documented date of the exceptional circumstances and the associated refund percentage will be evaluated when considering prorated or full refunds.

Class(es) must have been dropped/withdrawn from in order to be considered for a refund. If a grade was received (including a failing grade or incomplete grade), a refund appeal cannot be considered. Appeals for a fall semester must be received on or before June 30 of the following year; appeals for a spring semester must be received on or before November 30 of the same year; appeals for a summer semester must be received on or before February 28 of the following year.

Post-semester refund exceptions may also be considered when a University policy-based grade change is approved by the Scholastic Standards and Revision of Records Committee.

Requests for exceptions to the refund policy must be submitted to the Office of the Registrar and must be accompanied by appropriate supporting documentation. Requests for exceptions to the refund policy will be considered by the Refund Exception Committee. The Refund/Credit Appeal form and more information concerning the appeal process can be found on the Office of the Registrar's website.

The University will consider requests for full refunds of tuition and fees based on non-attendance, if it is determined that a student:

- Did not attend any classes during the semester;
- Did not live any length of time in University student housing;
- Did not have other campus charges on their accounts;
- Did not have any financial aid returned causing the returned aid to be placed on the student's account;
- Was assigned a "W" grade in all classes for the semester either by withdrawing from all classes by the last day to drop as indicated on the academic calendar or through a successful grade appeal to the Scholastic Standards and Revision of Records Committee;
- Submitted a refund appeal to the Office of the Registrar by the deadlines indicated above; and,
- Has not been given a full refund for non-attendance for a previous semester.

Department-Initiated: Exceptions may also be made when course(s) are dropped and added after the change of schedule period if the department of the course(s) dropped and added provides written verification to the Office of the Registrar stating that the late schedule change was required or recommended by the department.
