August 22, 2008

Missouri State University is pleased to submit our Appropriations Request for Operations for Fiscal Year 2010. These funds will support the University's long-range plan, *Imagining and Making Missouri's Future*, 2006-2011.

Our request for appropriation is provided in the form required by the Coordinating Board of Higher Education. To summarize our request, we are requesting an appropriation of additional ongoing state revenues totaling \$8,663,944. A summary of the justification for our request is as follows:

Decision Item 01: Core Mission Funding

\$6,479,944

In order to continue to be competitive for excellent faculty, staff and students and to maintain the quality of our programs, the University must obtain additional funds to offset price increases of educational materials and services and to provide a reasonable salary increase to faculty and staff. We must also address the rising cost of utilities, transportation, employee healthcare and wellness, and other supplies and services necessary for the development of an educated person.

As documented in the forms of this appropriation request, the State of Missouri provides approximately 41% of the funding for the education and general expenditures. These funds, when combined with student fees, gifts, investment revenue, grants and contracts, sales and services of educational services and other sources, provide educational opportunities for approximately 21,000 students (approximately 91% Missourians) and results in approximately 3,700 degree awarded (associate, baccalaureate, and graduate) per year. When the total appropriation is compared with the various categories of expenses, it is less than the direct cost of instruction. Our education and general funding, including state appropriations, provides resources to maintain the more than 200,000 square feet of buildings that Missouri has provided for these educational purposes.

Decision Item 02: Strategic Initiative – Caring for Missourians

\$2,184,000

According to a 2006 University of Missouri Health Care Task Force report:

Health policy experts across the country have long recognized that the United States will experience a shortage of health care workers starting in the latter part of this decade. Considerable shortages already exist in many specialties, and future shortages will likely affect a broad range of individuals, regardless of their socio-economic status.

To address this urgent need for qualified health care professionals, the public 4-year higher education institutions have developed a plan to increase their capacity for graduating health care professionals. As a result, each University is requesting funding to expand and/or enhance its existing health care programs.

Missouri State University (for both the Springfield and West Plains campuses) is requesting \$2,184,000 to expand our Communication Disorders, Nursing, Physician Assistant, and Physical Therapy programs. In addition, we will cooperate with the University of Missouri-Kansas City through a memorandum of

1

Appropriations Request for Operations For the Year Ending June 30, 2010 August 22, 2008 Page 2

understanding arrangement that would share funds UMKC is requesting to establish a cooperative Pharm-D program in Springfield. We will also work to develop partnerships with two-year colleges in our region that will increase the number of health-care graduates.

Each of our requests contains a basis of support, documentation and calculations. We believe our request is reasonable and reflects a commitment necessary to improve and advance the State of Missouri by developing educated persons.

IV. GROSS SQUARE FOOTAGE (Physical Plant)

Indicate the total nonauxiliary gross square footage to be maintained by your institutuion during FY 2009.

Square feet 3,354,709

List all new construction or razing of buildings that is to be completed in FY 2009 that will change the gross square footage data provided above. Indicate whether the change is an increase or decrease in square footage, the type of space modifications, the resulting change in nonauxiliary gross square feet, and the number of months the square footage will be in effect during FY 2009. If no changes occur, indicate "No change."

| | Type of Project or Space Modification | Gross Sq ft Increase or Decrease | Number of Months in Effect in FY 2009 | Annualized Gross sq. ft. Increase or Decrease |
|---|---------------------------------------|--|--|---|
| 1 | No change. | Decircuse | 1 1 2003 | Decrease |
| 2 | | | | |
| 3 | | | | |
| 4 | | | | |
| | TOTAL | 0 | | 0 |

V. SALARY COMPARISONS

List the approximate percentage salary increases provided or anticipated for staff as indicated below.

| Occupational | FY 2008 over | FY 2009 over |
|-------------------------------------|--------------|--------------|
| Category | FY 2007 (%) | FY 2008 (%) |
| Professors | 6.30% | 4.00% |
| Associate Professors | 5.60% | 4.00% |
| Assistant Professors | 4.00% | 4.00% |
| Instructors | 4.20% | 4.00% |
| Lecturers | 3.00% | 4.00% |
| Other Faculty | 1.35% | 4.00% |
| Executive/Administrative/Managerial | 5.10% | 4.00% |
| Other Professional | 4.40% | 4.00% |
| Technical and paraprofessionals | 3.80% | 4.00% |
| Clerical and secretarial | 6.00% | 4.00% |
| Skilled Crafts | 3.70% | 4.00% |
| Service/Maintenance | 3.70% | 4.00% |
| Students and all others | 0.00% | 4.00% |

List the salaries of full-time instructional staff on 9/10-month contracts/teaching periods by gender and academic rank for FY 2008.

| Gender and Academic Rank | Number | Salary Outlays | Average Salary |
|--------------------------|--------|----------------|----------------|

Square feet 176,144

List all new construction or razing of buildings that is to be completed in FY 2009 that will change the gross square footage data provided above. Indicate whether the change is an increase or decrease in square footage, the type of space modifications, the resulting change in nonauxiliary gross square feet, and the number of months the square footage will be in effect during FY 2009. If no changes occur, indicate "No change."

| Type of Project or Space Modification | Gross Sq ft Increase or Decrease | Number of Months in Effect in FY 2009 | Annualized Gross sq. ft. Increase or Decrease |
|--|--|--|--|
| No change. | | | |
| TOTAL | 0 | | 0 |

V. SALARY COMPARISONS

List the approximate percentage salary increases provided or anticipated for staff as indicated below.

| Occupational | FY 2008 over | FY 2009 over |
|-------------------------------------|--------------|--------------|
| Category | FY 2007 (%) | FY 2008 (%) |
| Professors | 3.00% | 4.00% |
| Associate Professors | 3.00% | 4.00% |
| Assistant Professors | 3.00% | 4.00% |
| Instructors | 3.00% | 4.00% |
| Lecturers | 2.50% | 4.00% |
| Other Faculty | | 4.00% |
| Executive/Administrative/Managerial | 3.50% | 4.00% |
| Other Professional | 4.00% | 4.00% |
| Technical and paraprofessionals | 3.00% | 4.00% |
| Clerical and secretarial | 3.50% | 4.00% |
| Skilled Crafts | | 4.00% |
| Service/Maintenance | 3.00% | 4.00% |
| Students and all others | | · |

List the salaries of full-time instructional staff on 9/10-month contracts/teaching periods by gender and academic rank for FY 2008.

| Gender and Academic Rank | Number | Salary Outlays | Average Salary |
|--------------------------|--------|----------------|----------------|
| Men | | | |
| Professors | 3 | \$151,436 | \$50,479 |
| Associate Professors | 1 | \$40,726 | \$40,726 |
| Assistant Professors | 8 | \$294,097 | \$36,762 |
| Instructors | 2 | \$68,000 | \$34,000 |
| Lecturers | 2 | \$102,937 | \$51,469 |

UNRESTRICTED EDUCATION AND GENERAL CORE BUDGET REQUEST ANALYSIS FORM 4

Department: Higher Education

Level 2: Missouri State University System

Level 3: Springfield, West Plains and Mountain Grove Campuses

I. UNIVERSITY MISSION

Missouri State University is a statewide university system with a mission in public affairs, whose purpose is to develop educated persons while achieving five goals: democratizing society, incubating new ideas, imagining Missouri's future, making Missouri's future, and modeling ethical and effective behavior.

Democratizing Society – Higher education will be increasingly crucial to individuals being successful participants in 21st century society, and Missouri State will accomplish this goal by ensuring access to high-quality public education for well-prepared students from diverse backgrounds. A Missouri State education will enable its graduates to live successful, mindful lives in what will be a more challenging and demanding world.

Incubating New Ideas – Universities will continue to be the source of most new scientific discoveries and technological innovations. Toward that end, Missouri State will expand and focus its research investments so that its faculty and students will be able to discover, advance, and synthesize knowledge. We will become an engine for knowledge.

Imagining Missouri's Future – Missouri State will be an institution where we educate one another about the crucial issues and choices that confront the modern world. We will be an institution that encourages students to weigh priorities, explore alternative views, and ultimately understand their personal values through open and informed dialogue and scholarly engagement. We will promote imaginative learning.

Making Missouri's Future — Missouri State graduates should be well-informed, confident and conscientious leaders, prepared not just to take good jobs upon graduation, but to make good jobs through the application of their knowledge and the pursuit of their ambitions. Missouri State will cultivate these leaders through a breadth of opportunities and a depth of learning that comes from rigorous standards in the classroom, in research, and in extracurricular activities. Our graduates will be committed to learning throughout their lifetimes, pursuing the personal curiosities that were awakened at Missouri State.

Modeling Ethical and Effective Behavior – To be true to the University's statewide mission in public affairs, we must be an institution known not just for the quality of our outcomes, but also the constant integrity of how we do our work, especially when it comes to respect, honesty,

integrity, collaboration, inclusiveness, social progress, and the effective stewardship of our resources—human, physical, and technology.

The University's identity is distinguished by its statewide mission in public affairs, requiring a campus-wide commitment to foster competence and responsibility in the common vocation of citizenship.

The academic experience is grounded in a general education curriculum which draws heavily from the liberal arts and sciences. This foundation provides the basis for mastery of focused disciplinary and professional studies, as well as enabling critical, independent intellectual judgment about the cultures, values, and institutions of the larger society.

The task of developing educated persons obligates the University to expand the store of human understanding through research, scholarship and creative endeavor, and drawing from that store of understanding, to provide service to the communities that support it. In all of its programs, the University uses the most effective methods of discovering and imparting knowledge and the appropriate use of technology in support of these activities.

The University functions through a multi-campus system that is integrated to address the needs of its constituents.

II. DESCRIPTION

Missouri State System

The Missouri State University campuses are structured to address the special needs of the urban and rural populations they serve. Missouri State University-Springfield is a selective admissions, graduate level teaching and research institution. Missouri State University-West Plains is an open admissions campus serving seven counties in south central Missouri. Missouri State University-Mountain Grove serves Missouri's fruit industry through operation of the State Fruit Experiment Station. The Missouri State University-Extended Campus provides anytime, anyplace learning opportunities through telecourses, Internet-based instruction and through its interactive video network (BearNet). The university also operates various other special facilities, such as the Darr Agricultural Center in southwest Springfield, the Jordan Valley Innovation Center in downtown Springfield, the Bull Shoals Field Station near Forsyth, the Baker's Acres and Observatory near Marshfield, the Missouri State University Graduate Center in Joplin, and the branch campus at Liaoning Normal University (LNU) in Dalian, China.

History

Missouri State University was founded as the Missouri State Normal School, Fourth District, by legislative action on March 17, 1905. Missouri State first opened its doors in June 1906. The name was changed to Southwest Missouri State Teachers College in 1919, Southwest Missouri State College in 1946, Southwest Missouri State University in 1972, and Missouri State University in 2005. Each new name has reflected the changed nature of the institution. After 100

years and four name changes, Missouri State is a comprehensive state university system offering a wide variety of programs and services to its students and the citizens of the state.

Missouri State University-Springfield Campus

The Missouri State University-Springfield Campus offers a spectrum of educational programs that respond to regional and statewide needs while striving for national and international excellence. Missouri State is an intellectual and creative resource for the Springfield metropolitan area, contributing to its economic development, social health, and cultural vitality through education, research, and professional outreach. The University collaborates with many communities and clienteles throughout the region in order to bridge the socio-economic, cultural, and political gaps that exist among them. Missouri State continues to shape its structures and design its policies and practices to enhance its effectiveness as a key institution for the citizens of Missouri.

The Missouri State University-Springfield campus offers baccalaureate, master's, specialist in education, and professional doctorate degrees, and is the host site for a cooperative doctorate degree in educational leadership with the University of Missouri-Columbia. As of 2006, the Springfield Campus offered programs through 42 academic departments organized in six academic colleges. More than 140 academic programs and options are offered at the undergraduate level, leading to eight undergraduate degrees.

In the 1990s, mission enhancement funds were provided to Missouri State, enabling the institution to better serve the state's need for a high-quality undergraduate/graduate institution. As a result, the Springfield Campus has become a major graduate education provider, offering more than 40 master's degree programs and working with the University of Missouri to provide cooperative master's and doctoral level programs. Graduate students comprise more than 16 percent of the campus' total student population.

Even with these changes, undergraduate education remains a priority, and implementation of selective admissions standards will continue, with sensitivity to the needs of the 24-county service area and the state of Missouri.

Missouri State University Downtown

In 1996, Missouri State University and Springfield entered into an agreement to direct future University expansion away from neighborhoods, such as Phelps Grove to the south of campus, and toward the downtown area northwest of campus. That agreement, reflected in the Missouri State Master Plan Visioning Guide and the Vision 2020 Springfield-Greene County Comprehensive Plan, has resulted in the University acquiring and/or leasing increasing amounts of properties in the downtown area. The Missouri State University - Springfield Master Plan Visioning Guide has been formally adopted by the Springfield Planning and Zoning Commission and the Springfield City Council. To ensure orderly development in the downtown area, the University has added a downtown planning element to its Master Plan Visioning Guide.

The Missouri State University Foundation owns the 81,000-square-foot Kenneth E. Meyer Alumni Center and adjacent parking garage, and Missouri State owns the 62,500-square-foot Jim D. Morris Center for Continuing Education and two nearby surface parking lots. In addition, Missouri State leases approximately 60,000 square feet to support numerous programs, including the Institute for School Improvement and the Department of Art and Design.

The University will continue to invest in new and leased facilities directed by the following objectives:

- To provide outstanding educational opportunities, specifically with regard to metropolitan issues, service learning, and public affairs
- To provide affordable, high-quality space for academic and auxiliary programs
- To ensure that the University can expand as required while, at the same time, fulfilling its obligations outlined in the Phelps Grove agreement with the City of Springfield
- To stimulate the revitalization of downtown Springfield
- To fulfill the University's metropolitan mission of contributing to the economic development, social health, and cultural vitality of the region

These objectives are based in large part on long-term partnerships with the City of Springfield, the Springfield School District, Ozarks Technical Community College, and many public and private entities that have an impact on the development of Springfield and the region.

The University will continue to assess the feasibility/desirability of locating other programs in downtown Springfield, as well as the possibility of expanding programs already located downtown. Further, the University shares the community's vision of downtown Springfield as an arts, entertainment and education center, and Missouri State intends to be an active partner in developing and revitalizing Springfield's center city.

Jordan Valley Innovation Center (JVIC)

The University will continue to develop the Jordan Valley Innovation Center as a major advanced research and manufacturing center in downtown Springfield. The mission of JVIC is to develop new products, create jobs, and develop the educated workforce necessary to attract and retain advanced manufacturing and life sciences companies in Missouri.

A former MFA mill being renovated through a series of federal appropriations, the JVIC complex will have three major buildings:

- Advanced Devices Research and Development Facility
- Advanced Manufacturing and Rapid Prototyping Facility
- Biomedical Research and Manufacturing Facility

As a Missouri Innovation Center, JVIC will develop and support advanced manufacturing and bio-technology in areas such as:

- Medical instruments and materials
- Bio-processing techniques and equipment
- Agri-business research and development
- Chemical and biological sensors and systems

William H. Darr Agricultural Center

Missouri State's William H. Darr Agricultural Center, located on a 100-acre site in southwest Springfield, is a unique asset that supports the Department of Agriculture's diverse programs.

Agriculture is a key economic component of the region. The food, fiber, and renewable resources that traditional agriculture provides are basics required for life. Missouri State's metropolitan location and the Darr Agricultural Center provide a unique opportunity to demonstrate the interactions between traditional agriculture's rural origin and the more urban setting of modern America. Springfield is home to significant agricultural businesses and government agencies that provide trade and service centers for producers, manufacturers, and consumers. These businesses and agencies are valuable educational assets that allow Missouri State University students to participate in off-campus education activities such as field trips and internships.

The Darr Agricultural Center serves as a laboratory and field experience classroom for the study of livestock management, equine studies, horticulture, agronomy, animal science and wildlife conservation and management. An additional benefit of the Center is that it provides agricultural/green space within the rapidly expanding Springfield metropolitan area.

The University is improving the Center through renovation of existing facilities and development of new facilities. This includes the renovation of the arena located at the Center, as well as the addition of a stalling barn, and a multi-use barn. In addition, the University plans to build a learning/service building at the Center that will help serve educational, technical assistance and customer service needs for the following components of the community: agriculture, continuing education, community development, business and industry, human-environmental sciences, horticulture, consumer studies, and youth development.

Missouri State University-West Plains

The West Plains Campus is a two-year, open admissions campus with a mission to provide quality educational opportunities to south central Missouri. Missouri State University-West Plains is structured to meet the needs of a seven-county rural area of south central Missouri within the larger Springfield metropolitan region. Missouri State University-West Plains is mandated to offer one-year certificates, two-year associate degree programs, and credit and non-credit courses. Missouri State University-West Plains also hosts bachelor's and master's degree programs provided by the Springfield Campus through both on-site offerings and distance learning technologies.

The West Plains Campus has separate accreditation through the Higher Learning Commission and currently offers three associate degrees – Associate of Arts in General Studies, Associate of

Science in Nursing, and Associate of Applied Science – with approximately 30 emphases/areas of specialization. The campus is integral to the successful implementation of the overall System mission, serves as one major feeder for the Springfield Campus, and provides a site for the Springfield Campus to offer upper-level and graduate programs.

Missouri State University-West Plains offers courses leading to the Associate of Arts in General Studies at Shannon Hall in Mountain Grove. Missouri State University-West Plains also provides educational opportunities via the BearNet interactive video network; university/community programs; and certificate programs, customized training programs, and non-credit outreach programs based on community needs.

History

Missouri State University -West Plains was founded in 1963 as the West Plains Residence Center. In 1977, the Southwest Missouri State University Board of Regents and, subsequently, the Missouri General Assembly, designated the name West Plains Campus of Southwest Missouri State University to replace Residence Center. In 1981, the legislature enacted a permanent status bill for the campus. In 1991, the legislature passed House Bill 51 which gave the West Plains Campus the authority to offer "one-year certificates, two-year associate degrees and credit and non-credit courses." In 2005, the legislature passed Senate Bill 98 which included changing Southwest Missouri State University's name to Missouri State University.

Missouri State University-Mountain Grove Campus

The major activities on the 190-acre Missouri State University-Mountain Grove Campus are the Missouri State Fruit Experiment Station, the Department of Agriculture (including Fruit Science), the Midwest Viticulture and Enology Center, and the Center for Grapevine Technology.

The Fruit Experiment Station was established in 1899 by the Missouri Legislature. The Station has a statewide mission to: "...experiment with the different kinds of fruits, to wit: Apples, peaches, berries of all kinds, grapes and small fruits of all kinds, and to ascertain the varieties that are the best adapted to this state..." The Missouri State Fruit Experiment Station promotes growth of the Missouri fruit crop industry through basic and applied research and an industry advisory program focused on pomology, enology, viticulture, plant pathology, entomology, molecular genetics, and plant physiology

Missouri State University-Mountain Grove supports a fruit industry advisory program, including fruit crops, grapes and wine, and consumer education. The advisory program uses traditional onsite advisory classes and workshops coupled with interactive video and Internet-based training.

In cooperation with the departments of Biology and Chemistry, the Department of Agriculture offers a cooperative master's degree in plant science, as well as undergraduate internships and a limited number of undergraduate classes. The Paul Evans Library of Fruit Science supports the State Fruit Experiment Station, as well as the plant science master's degree students and Missouri State University-West Plains students.

Missouri State University-Extended Campus Programs

The Extended Campus Programs extend academic opportunities through distance learning technologies. The academic programs offered using distance learning undergo the same academic review and scrutiny as academic programs offered in traditional settings.

The Extended Campus delivers high-quality, affordable educational services to learners anytime, anyplace. An array of distance learning technologies and delivery systems are available, including audio conferencing, radio, television (interactive video, telecourses, and microwave), satellite transmission, audiocassette and videocassette programs, and synchronous and asynchronous computer conferencing.

The distance learning strategy of the Extended Campus involves three major delivery systems: interactive video (BearNet), Internet-based instruction (Missouri State University Online), and telecourses.

The primary audience for BearNet is the traditional 24-county service area of Missouri State. However, BearNet is a robust network that can link with sites from other states, as well as internationally. During the next five years, BearNet will continue to be used on all three Missouri State campuses. The need for "face-to-face" meetings involving small groups will be ongoing. Centralized scheduling of academic facilities will be key to efficient operations, with sharing of ITV rooms allowing these resources to be maximized.

Missouri State Online allows students to earn academic credit by taking courses entirely on the Internet. This approach enables students to study and participate in discussions, whenever and wherever they choose. In addition, Missouri State University offers the Missouri Virtual School for high school students statewide via Internet-based instruction. This program focuses on science, math, and foreign languages.

The third major delivery system, telecourses, provides learners with the opportunity to take classes within their own homes on their own schedules.

The Extended Campus provides the same level of support services that faculty and students receive with traditional courses. The Extended Campus has the administrative and technology infrastructure, faculty support, and student support services necessary to meet the needs of distance learning students.

Bull Shoals Field Station

The Bull Shoals Field Station provides a location for faculty, students, and visiting scientists to conduct research and educational programs that promote understanding of southwest Missouri ecosystems. The Station, which began operations in 1999, exists through a cooperative agreement between Missouri State University and the Missouri Department of Conservation and the U.S. Army Corps of Engineers.

The Bull Shoals Field Station affords excellent opportunities for student and faculty research, field courses, and public service. Research at the Field Station addresses questions about organisms in their native habitats and develops solutions to problems in the rapidly changing environment of the Ozarks.

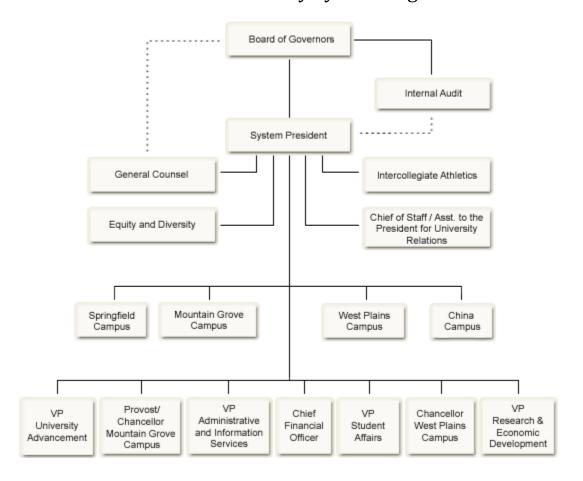

China Campus

As one part of the attempt to internationalize its programs, the University began in 2000 to operate the Missouri State Branch Campus at Liaoning Normal University (LNU) in Dalian, China. An accredited two-year Associate of Arts degree is offered, as is the Bachelor of Science in General Business. Additional Associate of Arts and completion programs in China will be established that are consistent with University priorities and opportunities.

Other Campuses

In addition to expanding its telecommunications-based education, Missouri State University will assess the desirability and feasibility of opening new education centers and campuses. These centers and/or campuses could be local – i.e., within the University's historic 24-county service area in southwest Missouri – or they could be international.

UNRESTRICTED EDUCATION AND GENERAL NEW DECISION ITEM REQUEST FORM 5

Department: Higher Education

Level 2: Missouri State University System

Level 3: Springfield, West Plains and Mountain Grove Campuses

Decision Item Name: Core Mission Funding

Decision Item Rank: 01

I. Purpose and Criteria for Inclusion in Request

We are requesting a \$6,479,944 (7.2%) increase in our appropriation from the State of Missouri to provide core mission funding that will maintain and, in some areas, improve our current level of instruction, research and public service for the citizens of Missouri. This amount consists of the "third year" 4.2% increase in funding of \$3,779,967 to return Missouri's funding of higher education to a level previously reached in fiscal year 2001 and an additional 3% increase in funding of \$2,699,977 to address core activities that have not received adequate support during the prior years of reduced funding.

II. Description

In order to continue to be competitive for excellent faculty, staff and students and to maintain the quality of our programs, the University must obtain additional funds to offset price increases of educational materials and services and to provide a reasonable salary increase to faculty and staff. We must also address the rising cost of utilities, transportation, employee healthcare and wellness, and other supplies and services necessary for the development of an educated person.

III. Cost Explanation

Our intended use of funds is documented in our strategic plan and summarized below.

Missouri State University intends to achieve five goals:

• **Democratizing Society** – Higher education will be increasingly crucial to individuals being successful participants in 21st century society, and Missouri State will accomplish this goal by ensuring access to high-quality public education for well-prepared students from diverse backgrounds. A Missouri State education will enable its graduates to live successful, mindful lives in what will be a more challenging and demanding world.

- Incubating New Ideas Universities will continue to be the source of most new scientific discoveries and technological innovations. Toward that end, Missouri State will expand and focus its research investments so that its faculty and students will be able to discover, advance, and synthesize knowledge. We will become an engine for knowledge.
- Imagining Missouri's Future Missouri State will be an institution where we educate one another about the crucial issues and choices that confront the modern world. We will be an institution that encourages students to weigh priorities, explore alternative views, and ultimately understand the basis for their personal values through open and informed dialogue and scholarly engagement. We will promote imaginative learning.
- Making Missouri's Future Missouri State graduates should be well-informed, confident and conscientious leaders, prepared not just to take good jobs upon graduation, but to make good jobs through the application of their knowledge and the pursuit of their ambitions. Missouri State will cultivate these leaders through a breadth of opportunities and a depth of learning that comes from rigorous standards in the classroom, in research, and in extracurricular activities. Our graduates will be committed to learning throughout their lifetimes, pursuing the personal curiosities that were awakened at Missouri State.
- Modeling Ethical and Effective Institutional Behavior To be true to the University's statewide mission in public affairs, we must be an institution known not just for the quality of our outcomes, but also the constant integrity of how we do our work, especially when it comes to inclusiveness, social progress, and the effective stewardship of our resources. Missouri State University will maintain and publish a Public Scorecard of important outcomes by which all stakeholders will be able to monitor and judge the institution's progress in becoming a public university that is respected for the way it conducts its business.

In order to accomplish these five goals, Missouri State will focus on the following priorities:

Faculty and Staff Salaries (including associated fringe benefits)

\$6,100,000

Attracting and retaining outstanding faculty and staff is essential to the University's success now and in the future. Unfunded growth has not allowed salaries to keep pace with competition. In fiscal year 2008, the average salary Missouri State University - Springfield's Professors was 10.42% less than their peers. Associate Professors' average salary was 10.41% below their peers and Assistant Professors' average salary was 4.12% below their peers.

In addition, Missouri State University will emphasize student recruitment and retention to ensure student success that will benefit Missouri through a more educated society and productive workforce. Core mission funding increases will enable Missouri State University to better identify qualified students, assist them as they transition into post secondary education and provide support throughout their educational experience that will result in successfully completing their educational programs.

Instructional, Research, Service, Facilities, and Academic, Student and Institutional Support Expenses

\$1,500,000

The Consumer Price Index, as published by the Bureau of Labor Statistics, for All Urban Consumers (CPI-U) increased by 5.0% for the one year period ending June 2008 (www.bls.gov/cpi). The percentage increases in costs of medical care, other goods and services, energy and food exceeded 5.0%. In order to provide an unchanged level of service to our students, an increase in funding is necessary.

Increases in Core Mission Funding will permit Missouri State University to improve and expand laboratory and classroom facilities and technologies that are constantly changing. Tomorrow's leaders need to gain experience that better tools and facilities can provide.

Utilities \$326,000

The cost of utilities has increased at a rate far greater than the consumer price index. Although the University has invested in energy saving measures through the installation of a chill-loop heating and cooling system and centralized building control thermostats, we continue to experience increases of 8.5% in the cost of providing this necessary and essential service.

Institutional Scholarships, Fellowships and Waivers

\$964,000

The University has implemented a number of competitive and need-based scholarships, fellowships and waivers designed to attract, assist and retain students. An increase in funding for these programs equal to the increase in student fees (CPI-U) is necessary.

TOTAL \$8,890,000

Our request is for **\$6,479,944**.

Should additional funding become available, we respectfully request that the difference between the documented need and the request be addressed.

IV. Evaluation of Outcomes

Missouri State University will focus on a set of 25 important institutional measures (including student outcomes) that will be presented in a "Public Scorecard." The elements for that scorecard include:

A. Student Achievement

- 1. Average and mid 50% range for entering first-year students' ACT
- 2. Retention rate of first-year and transfer students
- 3. Six-year graduation rates
- 4. Number and percentage of students involved in research projects and community service
- 5. Number and percentage of students winning state, national, international awards
- 6. Number and percentage of students authoring refereed publications and conference papers/presentations
- 7. Pass rates on licensure exams
- 8. Standardized student learning measures consistent with those recommended by the Higher Learning Commission
- 9. Student satisfaction on nationally normed measures

B. Research and Scholarship

- 1. Total and federal grant and contract proposals, awards, and dollars
- 2. Total books and refereed publications
- 3. Total refereed national and international presentations, exhibits
- 4. Number of faculty winning any of 15 categories of national awards (from the Lombardi report)

C. Access and Diversity

- 1. Minority enrollment
- 2. International student enrollment
- 3. Number and percentage of minority faculty and staff

D. Community Impact

- 1. Licenses, commercial start-ups, patents
- 2. Number of formal partnerships with other educational institutions
- 3. Number of partnerships with governmental entities, community agencies, businesses, health-care organizations
- 4. Number of conferences and Public Affairs events hosted

E. Institutional Support

- 1. Total Endowment
- 2. Annual Giving
- 3. Percentage of alumni giving
- 4. Faculty and staff salaries
- 5. Number of Endowed Chairs and Professorships

UNRESTRICTED EDUCATION AND GENERAL NEW DECISION ITEM REQUEST FORM 5

Department: Higher Education

Level 2: Missouri State University System

Level 3: Springfield, West Plains and Mountain Grove Campuses

Decision Item Name: Strategic Initiative - Caring for Missourians

Decision Item Rank: 02

I. Purpose and Criteria for Inclusion in Request

According to a 2006 University of Missouri Health Care Task Force report:

Health policy experts across the country have long recognized that the United States will experience a shortage of health care workers starting in the latter part of this decade. Considerable shortages already exist in many specialties, and future shortages will likely affect a broad range of individuals, regardless of their socio-economic status.

To address this urgent need for qualified health care professionals, the public 4-year higher education institutions have developed a plan to increase their capacity for graduating health care professionals. As a result, each University is requesting funding to expand and/or enhance existing health care programs.

Missouri State University (for both the Springfield and West Plains campuses) is requesting \$2,184,000 to expand our Communication Disorders, Nursing, Physician Assistant, and Physical Therapy programs. In addition, we will cooperate with the University of Missouri-Kansas City through a memorandum of understanding arrangement that would share funds UMKC is requesting to establish a cooperative Pharm-D program in Springfield. We will also work to develop partnerships with two-year colleges in our region that will increase the number of health-care graduates.

II. Description

Information regarding the need for this funding is documented in the 2006 University of Missouri Health Care Task Force report. Pertinent information to our request includes:

- Persons 65 years of age and older are expected to increase 44 percent in Missouri by the year 2020.
- Nationally, a shortage of 1.6 million to 2.5 million allied health workers is predicted by 2020.

- Double digit growth is expected in six allied health professions by 2012, including
 - Audiologists-19%;
 - Occupational therapists-30%;
 - Physical therapists-28%;
 - Radiation therapists-30%;
 - Respiratory therapists-32%; and
 - Speech language pathologists-25%.
- Nationally, more than 800,000 registered nurses are needed by the year 2020.
- The American Association of College of Nursing reports that a major factor contributing to the nursing shortage is the struggle of universities to expand their enrollments due to a lack of capacity.
- Vacancy rates for registered nurses in Missouri are currently almost 10 percent and a projected need of 19 percent is expected by 2010.
- There is a documented shortage of pharmacists in the United States, with national data indicating more than 8,000 unfilled positions.
- Long-range predictions forecast a national shortage of 157,000 pharmacists by the year 2020.
- The Missouri Economic Research and Information Center projects 2,287 openings for pharmacy in 2012; however, the projected number of pharmacists that will remain in Missouri after graduation is currently estimated at 1,551, a shortfall of more than 700.

III. Cost Explanation

Expansion of enrollments in Nursing, Physician Assistant, Physical Therapy, and Communication Disorders programs

\$2,184,000

Missouri State University and Missouri State University-West Plains would use these funds to recruit faculty and staff necessary to implement an expansion of existing programs in order to increase the number of students accepted in these critical health care programs. In addition to faculty and staff salaries and fringe benefits, there is a need for operating costs such as supplies, financial aid, student support, services, telecommunications, and travel and continuing education. The University will also have to expand its laboratory, classroom, and office space through rentals or renovation.

The allocation of these funds by natural classification of expenses is presented in the table below.

| Students | | 60.0 |
|--|----|-----------|
| FTE Faculty | | 8.0 |
| FTE Clerical, Student Services and Administrative Staff | | 3.5 |
| Faculty Salaries | \$ | 520,000 |
| Part-Time Clinical, Instructional and Supervisory Faculty | | 70,000 |
| Clerical, Student Services & Administrative Staff | | 105,000 |
| Fringe Benefits | _ | 188,000 |
| Total Salaries and Benefits | | 883,000 |
| Operating Costs (travel, supplies, telecommunication) | | 174,650 |
| Scholarships, Fellowships, Financial Aid, and Student Services Support | | 450,100 |
| Occupancy Costs for Faculty & Staff | | 101,340 |
| Classroom, Clinical Facilities, Equipment & Utilities | | 574,910 |
| Total Operating Expenses | | 1,301,000 |
| Total Expenses | \$ | 2,184,000 |

Cooperative Pharm-D with the University of Missouri-Kansas City

Missouri State University will work with the University of Missouri-Kansas City to develop a cooperative Pharm-D program at the Springfield campus to address the projected shortage of pharmacists in 2012. The memorandum of understanding will include funding for faculty and staff and associated fringe benefits. In addition, funding is necessary to provide laboratory, classroom and office space and associated operating expenses, such as supplies, services, travel, and continued education.

IV. Evaluation of Outcomes

Missouri State University and Missouri State University – West Plains will provide educational opportunities eventually resulting in 240 additional students within four years and 60 annual graduates in the following programs:

| Bachelor of Science in Nursing-generic program | 10 |
|---|----|
| • Bachelor of Science in Nursing-completion program | 20 |
| Master of Science in Nursing | 11 |
| Physician Assistant program | 6 |
| • Physical Therapy | 10 |
| • Communication Disorders | 3 |

Missouri State University and the University of Missouri-Kansas City will develop measurable goals for the Pharm-D program as part of the memorandum of understanding process.
