

HLC STEERING COMMITTEE

Date: Tuesday, October 2, 2012

Time: 11:00 AM - NOON

Location: Carrington 203

Agenda Topics

1. 2005 Report <http://www.missouristate.edu/assets/hlc/HLCReport2005.pdf>
2. Summary Analysis
3. New Criteria and Core Components (handout)
4. Assumed Practices
5. Open Pathway (handout)
6. QIP Draft Proposal
7. QIP Process <http://www.missouristate.edu/hlc/qip.htm>
8. Multi-location report (to be posted on Missouri State University HLC website)

Charge

The Steering Committee must organize and prepare the University for the HLC reaffirmation of accreditation and site visit. The most salient aspects of the work of the MSU HLC Steering Committee will be to:

- Write a report that describes how MSU addressed each recommendation in the 2005 HLC Review, and document the evidence to support the report;
- Document evidence that MSU meets all HLC assumed basic practices;
- Developing a process by December 2012 to demonstrate that MSU meets all criteria and core components required by the HLC;
- Document evidence over the next two years that the University meets all criteria and core components;
- Write the final report (less than 35,000 words) that describes clearly how the University has met the criteria and core components (due Spring 2015);
- Monitor the progress of the Quality Initiative Project (QIP) annually through working collaboratively with the University Assessment Council, Assessment Director and others.

The MSU HLC Steering Committee will be asked to give at least two updates each year between now and the site visit in 2015-2016 to Faculty Senate, Staff Senate, Academic Leadership Council, Administrative Council, and the Board of Governors. Other groups may also request updates, as needed. This committee will have clerical support through Dean Jahnke's office, and of course they will have access to data and support help from all functions across campus.

Assignments
