DEC Membership review:

Gary Iman completed two terms of service with the end of the 2018-32019 academic year. The committee commended his participation and contributions to DEC during his terms of service.

The EvaluationKIT pilot project with CNAS was successful. More opportunities for additional colleges/departments will continue through the coming academic year.

The Course Redevelopment Initiative was discussed. Revisions were updated while in the meeting. The process would start in the department and receive approval from the department head. Some colleges/departments may wish to have program coordinators or curriculum review committees provide approvals prior to department head approval. Committee recommended sending the proposal to the Provost.
