Distance Education Committee Meeting

August 29, 2019

Minutes

Meeting Minutes from April 25, 2019 submitted and approved.

John Turner from COAL was welcomed as the newest faculty member of DEC. Committee members went around the table with introductions and brief updates of online/distance education programs, courses or activities.

Dr. David Rohall discussed his student survey “Assessing Relative Impacts of Large Online Sections of Introductory Sociology Courses.” His observation was that the quality of an instructor was a larger indicator influencing student satisfaction in seated and online courses.

Discussion to initiate 2020 online student survey started with placing the groundwork of what do we want to know. A general outline of suitable questions will be discussed at the September DEC meeting.
