

Dear Program Administrators,

Congratulations! As a result of the review of your Athletic Training Program's Substantive Change-Level of Degree application, the Commission on Accreditation of Athletic Training Education (CAATE) has voted to accept the request for change of degree for the Athletic Training Program.

The next required comprehensive review for accreditation of this program, including an on-site review will occur at your normally scheduled time. The institution is reminded that continued compliance with the most recent Standards is expected. The program is encouraged to review the Standards regularly to ensure continuing compliance and is reminded that Annual Reports are due each year by October 1 within eAccreditation.

The CAATE appreciates the work and dedication required to obtain a Substantive Change of Degree for your Athletic Training Program and the significant achievement it represents.

The CAATE recognizes the faculty, staff, and administrators for their commitment to the advancement of education in Athletic Training, as well as your dedication to the preparation of qualified Athletic Training professionals.

Sincerely,

LesLee Taylor, PhD, ATC
President, CAATE
