OPENING REMARKS

Welcome to the 2020 Registrar Annual Meeting hosted by the Registrar's Office. As with all things 2020, we are changing our approach this year. Employing my best modern-phrasing voice – we have decided to pivot and change the modality of the delivery of the annual meeting content and materials. While we would enjoy seeing everyone in person, we feel that providing this alternative is the best practice in the current circumstances.

Included in this presentation are the most important updates and information from our office impacting the campus community this academic year. You will see throughout the presentation helpful links to webpages and contact information for each topic.

The mission of the Office of the Registrar includes providing quality support services to students, faculty, staff, alumni, parents and other constituents of the University, and maintaining the highest possible level of efficiency and effectiveness. It is in this spirit that we offer to you the following presentation.

Stay healthy, stay safe!

A handwritten signature in cursive script that reads "Angela Young".

In an effort to protect student health and safety and limit physical contact in the office, the Office of the Registrar would like to highlight the following transaction requests that can be submitted via MSU student Bearmail account:

- [Change of Student Contact Information](#) – Address changes (phone and personal email can be updated in My Missouri State)
- [Change of Student Information](#) – Name changes, marital status, and other items
- Major and/or Minor changes (in your email, include your M-number and specify if you are changing or adding major(s)/minor(s))
- [Enrollment Verification](#)

Additionally, the following transactions can be submitted through My Missouri State:

- Official Transcript Request
- Chosen name, email and phone number updates
- Dropping courses (with and without a hold)

DEGREE WORKS 5.0.3
UPGRADE-
DEGREE AUDIT
FEATURE UPDATES

New simplified what-if degree audit layout where all desired majors/minors can be selected in one section. In the previous version, the first major and minor were selected in one section and the additional majors/minors were added in a separate area.

Updated degree audit symbols to provide more clarity. This includes text indicators at the block level and replacement of the “blue squiggle” and “double squiggle” at the requirement level.

Exception management tool for researching previous exception entries for those with the exception processing role.

New links section to make it easier for users to access related websites.

Easier to read (albeit longer) print PDF audits.

DEGREE WORKS 5.0.3 UPGRADE- NEW STUDENT EDUCATIONAL PLANNER MODERN DESIGN

The previous edition required four different views to see all of the various information pieces. This is now simplified into one view.

The screenshot displays the 'Requirements' section of the Degree Works 5.0.3 educational planner. The interface is organized into three columns representing different terms: Fall 2018 (14.0 credits), Spring 2019 (16.0 credits), and Fall 2019 (15.0 credits). Each column contains a list of courses and resources, all marked as 'ON-TRACK'. The courses listed include COM 115, PLS 101, ENG 110, HST 104, SOC 150, SPN 202, HST 103, ECO 155, GRY 108, SPN 312, and GBL 250. Additionally, there are sections for 'Videos and Resources' (e.g., 'Navigating My Missouri State', 'How to Register for Classes', 'How to Use Trial Schedule Builder') and 'Advisement' (e.g., 'Global Studies Credit Sharing'). A sidebar on the left provides navigation options: Choice, Course, Placeholder, and Test Score. The top right corner features an 'Add term' button.

DEGREE
WORKS 5.0.4
UPGRADE-
TENTATIVELY
TARGETED
FOR SPRING
2021

- Improved What-if audit major filtering by degree.
- Fix of 5.0.3 defects (such as GPA display issues).
- Repeat codes now visible within the degree audit.
- Potential for introduction of preferred name into the degree audit.

ACADEMIC APPEALS PROCEDURES

- <https://www.missouristate.edu/Registrar/academicappeal.htm>
- This is an excellent resource for faculty, staff and students when questions arise about an appeal process and the person is not sure what the academic appeal process is for a particular issue. This is essentially a quick reference guide to assist you in finding the right avenue for the appeal.

Academic Appeals Procedures

Appeals related to undergraduate degree requirements and graduation

If your first appeal is denied and you wish to appeal the decision, then proceed to step number 2, then 3, etc.

CATALOG INFORMATION

[Undergraduate Catalog](#)

[Graduate Catalog](#)

The catalog is always the best source for up to date information on program and course details.

Reference the catalog for current course prerequisites and descriptions.

Use only catalog program and course information when submitting curricular changes. Do not copy information from departmental pages or other websites.

Typically, new programs are published in the July publication of the catalog, along with all the curricular items approved the previous academic year. Because the catalog is online, we are able to update the catalog at various times. It is important to refer to *registration dates* versus *catalog publication dates* when completing curricular changes/updates.

CURRICULUM UPDATES AND REMINDERS

Contact for Curriculum

Email Katrina Chavez at
curriculum@missouristate.edu or
kchavez@missouristate.edu for support.

MTH 135-Pending Deletion

We will be working with departments to review course and program information pertaining to MTH 135 to ensure curricular changes are submitted to address the pending deletion of MTH 135.

Proposal Review Before Submission

If you are submitting a curricular proposal and need assistance or would like it reviewed, we can provide that support through our office.

Curriculum Calendar

The curriculum year begins in August and concludes in May. Approved curricular changes/updates are typically reflected in the July publication of the catalog.

Refer to the [Faculty Senate Calendar](#) for council committee meetings, senate meetings, etc.

BUILDING
REMINDERS

WAITLISTING

FINALS SCHEDULE

Class Schedule Building Reminders

- Refer to the [online resources](#) for support.
- Bookmark [schedule building dates and deadlines](#).
- Be sure to follow the guidelines for changes after registration begins.
- Follow the [cancelled classes](#) process if cancelling a class.
- Schedule building impacts how a student is charged student service fees and tuition, so it is important that this information is accurate based on how we are delivering the section. Review online resources or contact Katrina Chavez for more information.

Waitlisting

- Waitlisting begins when registration opens and typically ends the Wednesday of the first week of classes. This means that if a class has a waitlist with open seats, students can add themselves to that waitlist until 5pm Wednesday, first week of classes. On Thursday, we will send departments a list of students left on the waitlist for their classes. On Friday, we will remove remaining students from the waitlist and remove all waitlists from classes. Any open seats are then open to any student eligible to register in that class.
- **DO NOT** give closed level overrides to students for classes that have a waitlist on them. This inaccurately alerts the students on the waitlist that there is an open seat, when there isn't one. Contact Katrina Chavez to review how to add a student to a closed class that has an active waitlist.

Finals Schedule

- The finals schedule is [posted](#) online, however, with changes to the delivery of classes due to COVID-19, students should contact their instructor or department head for specific finals schedule information.

SIGNAL VINE

- We are continuing the texting initiative led by the Center for Academic Success and Transition. Several offices continue to reach out to a population of students from fall 2018 to present to communicate important information and to provide 'nudges' to help them keep on track. This is a two-way texting platform called Signal Vine where students are able to text back questions and get more detailed information specific to them. The Registrar's Office has been texting students since July of 2019. We have around 7,600 students in our program and over the last two years we have sent 119,145 messages. Our messages focus on registration, schedules, drop dates and important deadlines.
