# Future System Updates

- **Banner XE Upgrade** – the most recent major upgrade of Banner has significant improvements in class schedule building, faculty grading entry, registration, and more.
- **Mobile registration app** – as the world moves more to transactions being completed via smart device, this enhancement will be needed. It is also available with Banner XE.
- **Workflow** – a plan to convert predominantly manual and paper processes into electronic workflows, example are student registration requests, requesting permissions and overrides; and initiating mixed credit/senior permission approvals.
- **Integrating forms with Banner** – transition existing forms that are independent of Banner to be integrated with the student system (e.g., grade change authorization, reporting non-attendance, instructor drop, etc.)

# Major Processes of the Office Relevant to You
