BCSSE
beginning college survey of student engagement

## Missouri State University

BCSSE 2011-NSSE 2012 Combined Report Cross-Sectional and Longitudinal Results August 2012

The cross-sectional results are based on all first-year student respondents from your institution's BCSSE 2011 and NSSE 2012 administrations (in contrast to the longitudinal results which contain only matched data). These data provide the best estimates of your first-year students' pre-college characteristics and their engagement during the first year. By presenting your BCSSE-NSSE cross-sectional results side-by-side, you can identify areas of correspondence as well as gaps in engagement to develop a better understanding of the first-year student experience.

## Variables

The items from the BCSSE and NSSE surveys appear in the left column of the report with same or similar wording as they appear on the instruments.

## Response Options

Response options presented on the survey were collapsed into fewer categories for reporting purposes.

## Data Source

These columns present the unweighted BCSSE 2011 frequencies and the weighted NSSE 2012 frequencies.

How many hours in a typical 7-day week did you spend or expect to spend doing each of the following?

Preparing for class (study ing, doing
homework, rehearsing, etc.)

| homework, rehearsing, etc.) | 11-20 | 620 | 6 | , 50 | , | 158 - |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | 25\% | 1,500 | 60\% | 160 | 39\% |
|  | More than 20 | 165 | 7\% | 539 | 21\% | 88 | 22\% |
|  | Total | 2,526 | 100\% | 2,512 | 100\% | 406 | 100\% |

## Count

The actual number of students who answered within each response category.

Column Percentage (\%)
The percentage of students responding to the particular option in each question.

[^1]BCSSE
beginning college survey of student engagement

These longitudinal results contain matched data from your students who completed both the BCSSE 2011 and NSSE 2012 surveys. Students identified as seniors in your NSSE population file or were from a local NSSE administration were excluded. This report examines the relationships between incoming student characteristics and their reported engagement near the end of the first year. With longitudinal data, you can more effectively identify how students with varying pre-college characteristics were engaged during their first year of college.

Six BCSSE scales are categorized into quartile ranges based on the lower 25 percent (Low25), the middle 50 percent (Mid50), and the upper 25 percent (Top25) of respondents.

## BCSSE Scales

The following BCSSE scales were constructed by converting the responses for each item to a $0-10$ range. A mean scale score was then calculated for each student. Below is a brief description of each scale with the component BCSSE items in parentheses:

| High School Academic <br> Engagement | Student engagement in educationally relevant behaviors during the last year of high <br> school. (hreadasg, hwrite5, hwrite5m, hacadpr, hclquest, hclprese, hfacgrad, hclassgr, <br> hoccgrp, hrewropa, hfacidea, hoocidea) |
| :--- | :--- |
| Expected Academic Engagement | Expected engagement in educationally relevant behaviors during the first year of college. <br> (cacadpr, cclquest, cclprese, cfacgrad, cclassgr, coccgrp, cfacidea, coocidea) |
| Expected Academic Perseverance | Student certainty that they will persist in the face of academic adversity. (cotherint, <br> cfindinfo, ccourdis, caskinst, cfinish, cstaypos) |
| Expected Academic Difficulty | Expected academic difficulty during the first year of college. (clearnma, cmantime, <br> cgethelp, cintfac) |
| Perceived Academic Preparation | Student perception of their academic preparation. (cgnwrite, cgnspeak, cgnanaly, <br> cgnquant, cgncompt, cgnother, cgninq) |
| Importance of Campus | Student-rated importance that the institution provides a challenging and supportive <br> environment. (cenvscho, cenvsupr, cenvdivr, cenvnaca, cenvsoca, cenveven) |
| Environment |  |

## NSSE Benchmarks of Effective Educational Practice

Also included in this report are four of the five NSSE Benchmarks ${ }^{1}$, with the component items in parentheses:

Level of Academic Challenge (adjusted)

Active \& Collaborative Learning

Student-Faculty Interaction

## Supportive Campus Environment

Quality of campus environment to support student success. (envsocal, envsuprt, envnacad, envstu, envfac, envadm)

[^2]BCSSE
beginning college survey of student engagement

## Interpreting and Using BCSSE-NSSE Results

In the example below (NSSEville State), students who scored in the top 25\% ("Top25") for High School Academic Engagement were engaged in their first year of college with an average Level of Academic Challenge (LAC) benchmark score of 58.2, while their peers comprised of all other respondents attending BCSSE master's institutions reported an average LAC score of 60.4. This difference is not statistically significant and has a small effect size of .16. However their students in the lowest quartile ("Low25") were significantly less engaged compared to their peers (scoring 46.0 and 49.6, respectively). To increase engagement in LAC, NSSEville State could use this information in their faculty development programs to discuss how classroom environments and coursework can be more engaging for students who may otherwise be less engaged. Student advisors may also use these results to work with students at risk for low engagement in academically challenging activities.

## Quartile Ranges

The lower $25 \%$, middle $50 \%$, and the top $25 \%$ of scores for each BCSSE scale calculated for each institution. The quartiles calculated for your institution are then applied to their peer group to create a group of students who are comparable regarding the BCSSE scale. This often results in the peer group having more than or fewer than the $25 \%$ in the lower and upper quartiles.

## Comparison Group

Data from all other institutions at either the baccalaureate, master's, or doctoral level. See list of included institutions by Basic Carnegie type at the end of this report.

NSSE Benchmark
The NSSE
benchmark is listed
across the top of
the page.
Level of Academic Challenge

## Statistical Significance

Items with mean differences that are larger than would be expected by chance alone are noted with one, two, or three asterisks, referring to three significance levels ( $\mathrm{p}<.05, \mathrm{p}<.01$, and $\mathrm{p}<.001$ ). Large sample sizes (like those produced by NSSE) tend to generate more statistically significant results even though the magnitude of mean differences may be inconsequential. It is recommended to consult effect sizes (see below) to judge the practical meaning of the results.

| BCSSES Cale | Quartile <br> Range $^{1}$ |
| :---: | :---: |
| High School | Low25 |
| Academic | Mid50 |
| Engagement | Top25 |

NSSEville State

| Mean | SD | $\mathbf{N}$ |  | Mean | SD | $\mathbf{N}$ |
| ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
|  | 11.8 | 67 |  | 49.6 | 12.5 | 1,916 |
| 53.7 | 12.3 | 141 |  | 54.8 | 12.0 | 4,660 |
| 58.2 | 14.6 | 71 |  | 60.4 | 12.5 | 3,465 |

BCSSE Scale The six BCSSE scales are listed in the left column.

Mean Benchmark Scores
The average benchmark score for all students attending your institution and all students attending institutions in the comparison group, calculated for each quartile range.

Number of Respondents
The actual number of respondents who were included in each group.

## $\nabla$

## Effect Size

Effect size indicates the "practical significance" of the mean difference. It is calculated by dividing the mean difference by the pooled standard deviation. In practice, an effect size of .2 is often considered small, .5 moderate, and .8 large. A positive sign indicates that your institution's mean was greater, thus showing an affirmative result for your institution. A negative sign indicates the institution lags behind the comparison group, suggesting that the student behavior or institutional practice represented by the item may warrant attention.

[^6]The following is the list of institutions by Basic Carnegie type that were included in the longitudinal analysis. ${ }^{1}$

## Baccalaureate Colleges

Bard College at Simon's Rock
Bethune Cookman University
Central Methodist University
Centre College
Clarke University
College of Our Lady of the Elms
Dean College ${ }^{2}$
East Texas Baptist University
Florida Southern College
Goucher College
Grove City College
Harris-Stowe State University
Hendrix College
Hilbert College
Holy Cross College
Iowa Wesleyan College
Lenoir-Rhyne University
Lyndon State College

Macon State College
Oglethorpe University
Paul Smith's College
Southern Vermont College
Southern Virginia University
Stephens College
Union College
University of Mobile
University of South Carolina-Beaufort
University of the Ozarks
Ursinus College
Utah Valley University
Washington College
Wentworth Institute of Technology
Wheaton College
Whittier College
William Peace University

## Master's Colleges and Universities

Abilene Christian University
Alvernia University
Avila University
Bellarmine University
Bentley University
Black Hills State University
Chaminade University of Honolulu
Concordia University Texas
Cumberland University
Elon University
Hamline University
Life Pacific College ${ }^{3}$
Loyola Marymount University
Marist College
Medaille College
Missouri State University
Monmouth University
Morehead State University
Nicholls State University

Norfolk State University
North Central College
Northern Kentucky University
Northwestern State University
Oklahoma Christian University
Our Lady of the Lake College ${ }^{3}$
Quincy University
Saint Xavier University
Sierra Nevada College
Stetson University
SUNY-Buffalo State College
The Richard Stockton College of New Jersey
University of North Florida
University of St. Francis
Wagner College
Western Carolina University
Westminster College
Xavier University

## Doctorate-Granting Universities

| Auburn University | Syracuse University |
| :--- | :--- |
| Baylor University | Texas Tech University |
| East Carolina University | University of Georgia |
| Oklahoma State University | University of Louisville |
| Pace University | Widener University |

[^7]
[^0]:    ${ }^{1}$ Blank cells indicate NSSE items with no similar item on BCSSE.
    ${ }^{2}$ Weighted NSSE frequencies. See Frequency Distributions in the NSSE section of this report for more details.

[^1]:    ${ }^{1}$ Blank cells indicate NSSE items with no similar item on BCSSE.
    ${ }^{2}$ Weighted NSSE frequencies. See Frequency Distributions in the NSSE section of this report for more details.

[^2]:    ${ }^{1}$ The benchmark "Enriching Educational Experiences" is not included in this section of the report given that it measures the participation in many activities not typically completed by first-year students (internships, capstone courses, study abroad, etc).

[^3]:    ${ }^{1}$ Low25=Lower Quartile; Mid50=Interquartiles; Top25=Upper Quartile.
    ${ }^{2}$ * $\mathrm{p}<.05$; ** $\mathrm{p}<.01$; *** $\mathrm{p}<.001$ (2-tailed).
    ${ }^{3}$ Effect size $=$ mean difference divided by the pooled std dev.

[^4]:    ${ }^{1}$ Low25=Lower Quartile; Mid50=Interquartiles; Top25=Upper Quartile.
    ${ }^{2} * \mathrm{p}<.05$; ** $\mathrm{p}<.01$; *** $\mathrm{p}<.001$ (2-tailed).
    ${ }^{3}$ Effect size $=$ mean difference divided by the pooled std dev.

[^5]:    ${ }^{1}$ Low25=Lower Quartile; Mid50=Interquartiles; Top25=Upper Quartile.
    ${ }^{2}$ * $\mathrm{p}<.05$; ** $\mathrm{p}<.01$; *** $\mathrm{p}<.001$ (2-tailed).
    ${ }^{3}$ Effect size $=$ mean difference divided by the pooled std dev.

[^6]:    ${ }^{1}$ Low25=Lower Quartile; Mid50=Interquartiles; Top25=Upper Quartile.
    ${ }^{2}$ * $\mathrm{p}<.05$; ** $\mathrm{p}<.01$; *** $\mathrm{p}<.001$ (2-tailed).
    ${ }^{3}$ Effect size $=$ mean difference divided by the pooled std dev.

[^7]:    ${ }^{1}$ For information on the 2010 Carnegie Classifications, see classifications.carnegiefoundation.org.
    ${ }^{2}$ Basic Carnegie Classfication: Primary Associate's. Included for comparison purposes only.
    ${ }^{3}$ Basic Carnegie Classfication: Special focus institution. Included for comparison purposes only.
