

ENG 321

Public Affairs Reflection

Dr. Rhonda Stanton

For a final assignment, you will write a reflection paper for English 321 that has to do with the Public Affairs Mission and its three pillars at Missouri State University. I expect the paper will be two to three pages, double spaced. You will turn in two copies of the paper when you come for your final on Wednesday, 12/10. You may use headings. I expect this to be in essay format and not just lists.

You need to cover a few things in this reflection paper:

- * Explain your understanding of the Public Affairs Mission. It would be interesting to learn what you thought about the Mission before our class discussions, and then what you thought after our discussions. Did you learn anything? Did anything surprise you? What does the Mission mean to you?
- * Tell about your final project and make connections with the Public Affairs Mission and your final project. Tell what your final project was and who your client was. Explain what problem you were solving for your client. Then, connect your final project to the Public Affairs mission, and include as many of the pillars as you are able, but name at least one.
- * Finally, tell what your major is, what your planned career is, and how you can live the Public Affairs mission even after you leave MSU.
