Working with MSU makes it easier to fulfill our mission as MSU provides students to assist us through CASL, LCS, and volunteering, and some faculty are donors.

---

**Q9**

During your work/partnership with MSU did you encounter any challenges? If so, please describe the challenges you encountered.

It is often difficult to get ahold of the "right" person to talk to about something.

---

**Q10**

How satisfied were you with your overall communication with MSU and do believe you have a voice at the table as it relates to community engagement?

**Satisfied,**

Please Explain How Communication Could Be Improved:  
Many organizations hold community engagement meetings where representatives from nonprofits and other community orgs can meet periodically to discuss what's going on, what's going well, and what could be improved. I feel a meeting like this might increase community involvement and make the other businesses feel more heard.

How long have you or your organization been working with MSU?

1-5 years **Staff, Students**

**Q8**

How did working with MSU influence your ability to fulfill the mission of your organization and help to move your organization forward? Please describe.

CASL and LCS programs, MSW program intern students. Students who have volunteered have helped with administrative functions in the office as well as direct patient care. The volunteer hours are needed for our program to remain compliant with Medicare regulations. Hospice payment comes mostly from Medicare. A condition of participation through Medicare is that each Hospice program must accumulate 5% of the total direct care hours of our paid staff of Chaplains, Social Workers, Nurses and Aides as volunteer hours. The landscape for finding volunteers has changed somewhat since Covid and working with MSU through their various programs has certainly helped our agency to meet the Medicare standard put forth.

**Q9**

During your work/partnership with MSU did you encounter any challenges? If so, please describe the challenges you encountered.

n/a

**Q10**

How satisfied were you with your overall communication with MSU and do believe you have a voice at the table as it relates to community engagement?

**Neutral,**

Please Explain How Communication Could Be Improved:  
Perhaps informational that describes the process MSU would like to see to better connect our organization and its opportunities with their various programs. Thus far other than the LCS program we in a sense stumbled upon we have not been able to truly engage the CASL program. The intern that is doing their practicum at our agency sought us out.

**Q11**

How satisfied were you with your quality of interaction with MSU?

**Neutral**

**Q12**

Will you continue to work with MSU to help with your organization's work?

If yes, please share your thoughts on how; if no, please share why.:

Yes, we will continue to work towards being engaged with the LCS program.

**Q8**

How did working with MSU influence your ability to fulfill the mission of your organization and help to move your organization forward? Please describe.

From the beginning of the project which was identified by MSU Nursing students as early as 2011, students have played a active role in the development and direction of the WMR. Over the first 5 years, nursing students provided needed research and development of policy/procedures which propelled the project from a pilot program to reality. Since 2015, we have used students as CASL interns to provide for the safety net of our clients through the evenings. This provided an ability of the students to work with a population that is not normally seen in their work/study environments, and to also learn something of both medical and environmental issues confronting the homeless/at risk populations of Springfield.

Additionally over the years, several teams of students have provided educational programs for our clients which have been helpful and most appreciated.

**Q9**

During your work/partnership with MSU did you encounter any challenges? If so, please describe the challenges you encountered.

The only challenges we have is that we could always use one more student! We love hosting the students.

**Q8**

How did working with MSU influence your ability to fulfill the mission of your organization and help to move your organization forward? Please describe.

Working with MSU design class faculty and students has enabled us to spread Habitat's mission in a fun and creative way. Students provide vital volunteer efforts to support our affordable homeownership program. Without our volunteers we would not exist. They have also assisted with marketing efforts to better showcase our ReStore and what it has to offer. Various students have provided vital support in internship roles.

Administration, staff and directors have served as board members and on various committees, in addition to providing volunteer hours.

**Q9**

**Q8**

How did working with MSU influence your ability to fulfill the mission of your organization and help to move your organization forward? Please describe.

We offer hippotherapy sessions to our patients as part of their treatment plan. It requires 2-3 volunteers to put each patient on a horse, and we currently have over 50 children on a rotation. A great many of our volunteers come from MSU to get service hours, meet class requirements, or learn more about pediatric or horse-mounted therapy. We have partnership with multiple professors who require service hours as part of their classes, as well as the Service-Learning Department.

**Q9**

During your work/partnership with MSU did you encounter any challenges? If so, please describe the challenges you encountered.

The only challenge I have encountered in partnership with MSU is inconsistency in volunteer numbers. We get physical therapy students in the Fall, equine therapy students in the Spring, and sporadically get assigned service-learning students. I am not sure that there is a solution, nor is it especially problematic as we appreciate all of the assistance regardless of the ebbing and flowing nature.

**Q10**

How satisfied were you with your overall communication with MSU and do believe you have a voice at the table as it relates to community engagement?

**Satisfied,**

Please Explain How Communication Could Be Improved:  
I tend to be in contact with individual faculty members or student organization representatives as opposed to a department or program focusing on community engagement or service.

**Q11**

How satisfied were you with your quality of interaction with MSU?

**Very Satisfied,**

Please Explain How Interactions Could Be Positively Improved:  
Everyone has been very helpful and professional in written and verbal interactions.

**Q12**

Will you continue to work with MSU to help with your organization's work?

If yes, please share your thoughts on how; if no, please share why.:

Yes- I hope to expand into bringing more service learning opportunities to speech and occupational therapy departments as opposed to just physical therapy!

As a teaching school, we are proud of our partnership with Missouri State University and our role in supporting service-learning students. Through this collaboration, we have worked with students from education, physical therapy, speech-language pathology, occupational therapy, physician assistant programs, and family life specialists. This partnership has enriched MSU students' hands-on learning experiences while simultaneously strengthening our community. We are honored to be a community partner, as this collaboration not only enhances their knowledge but also contributes to improving educational systems and community well-being.
