## **About Missouri State University**

Missouri State University is a public, comprehensive metropolitan university system with a statewide mission in public affairs with an enrollment of over 23,000, whose purpose is to develop educated persons while guided by three overarching and enduring commitments to student learning, inclusive excellence and institutional impact. The University's identity is distinguished by its statewide mission in public affairs, requiring a campus-wide commitment to foster competence and responsibility in the common vocation of citizenship. The academic experience is grounded in a general education curriculum which draws heavily from the liberal arts and sciences. This foundation provides the basis for mastery of disciplinary and professional studies. It also provides essential forums in which students develop the capacity to make well-informed, independent critical judgments about the cultures, values and institutions in society.

The task of developing educated persons obligates the University to expand the store of human understanding through research, scholarship and creative endeavor, and drawing from that store of understanding, to provide service to the communities that support it. In all of its programs, the University uses the most effective methods of discovering and imparting knowledge and the appropriate use of technology in support of these activities.

The Missouri State University campuses are structured to address the special needs of the urban and rural populations they serve. Missouri State University-Springfield is a selective admissions, graduate level teaching and research institution. Missouri State University-West Plains is an open admissions campus serving seven counties in south central Missouri. Missouri State University-Mountain Grove serves Missouri's fruit industry through operation of the State Fruit Experiment Station. The Extended Campus provides anytime, anyplace learning opportunities through telecourses, Internet-based instruction and through its interactive video network (BearNet). The University also operates various other special facilities, such as the Darr Agricultural Center in southwest Springfield, the Jordan Valley Innovation Center in downtown Springfield, the Bull Shoals Field Station near Forsyth, Baker's Acres and Observatory near Marshfield, the Missouri State University Graduate Center in Joplin and a branch campus at Liaoning Normal University in Dalian, China. In addition, Missouri State has the operations and program offerings of one entire academic department, its Department of Defense and Strategic Studies, located near Washington, D.C., in Fairfax, Virginia.

#### **Independent Auditor's Report**

Board of Trustees Missouri State University Foundation Springfield, Missouri

We have audited the accompanying financial statements of Missouri State University Foundation, which comprise the statement of financial position as of June 30, 2013, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Missouri State University Foundation as of June 30, 2013, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Report on Summarized Comparative Information

We have previously audited the June 30, 2012, financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 11, 2012. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2012, is consistent, in all material respects, with the audited financial statements from which it has been derived.

BKD, LLP Springfield, Missouri October 7, 2013

# Notes to Financial Statements June 30, 2013

## Note 1: Summary of Significant Accounting Principles

### Purpose of the Foundation

The purpose of the Missouri State University Foundation (the "Foundation"), previously Southwest Missouri State University Foundation, is to be the legal vehicle to receive, manage and distribute all private gifts, restricted and unrestricted, for the benefit of Missouri State University (the "University"), or its successors, or any institution of higher learning with which it may merge. The Foundation provides funds from private sources to a variety of University departments and programs.

The Board of Trustees, which governs the Foundation, is separate and distinct from the Board of Governors, the governing body of the University.

The Foundation's primary source of revenue is from contributions and their investment return.

#### Description of Net Assets

The net assets of the Foundation are reported in the following categories:

- Unrestricted Net Assets—net assets that are neither permanently nor temporarily restricted by donor-imposed stipulations, and are expendable for any purpose.
- Temporarily Restricted Net Assets—net assets which result from donor-imposed restrictions that permit the Foundation to expend the donated assets as specified, and are satisfied by either the passage of time or by actions of the Foundation.
- Permanently Restricted Net Assets—net assets which result from donor-imposed restrictions that such assets be maintained permanently, but permit the Foundation to expend part of the income and gains derived from the donated assets depending on donor restrictions.

#### Cash and Cash Equivalents

The Foundation considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, cash equivalents consisted primarily of certificates of deposit and money market accounts with brokers.

At June 30, 2013, the Foundation's cash accounts exceeded federally insured limits by approximately \$370,000.

### Contributions and Pledges Receivable

Gifts of cash and other assets received without donor stipulations are reported as unrestricted revenue and net assets. Gifts received with a donor stipulation that limits their use are reported as temporarily or permanently restricted revenue and net assets. When a donor stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

# Notes to Financial Statements June 30, 2013

Gifts of land, buildings, equipment and other long-lived assets are reported as unrestricted revenue and net assets unless explicit donor stipulations specify how such assets must be used, in which case the gifts are reported as temporarily or permanently restricted revenue and net assets. Absent explicit donor stipulations for the time long-lived assets must be held, expirations of restrictions resulting in reclassification of temporarily restricted net assets to unrestricted net assets are reported when the long-lived assets are placed in service.

Unconditional gifts expected to be collected within one year are reported at their net realizable value. Unconditional gifts expected to be collected in future years are initially reported at fair value determined using the discounted present value of estimated future cash flows technique. The resulting discount is amortized using the level-yield method and is reported as contribution revenue.

Conditional gifts depend on the occurrence of a specified future and uncertain event to bind the potential donor and are recognized as assets and revenue when the conditions are substantially met and the gift becomes unconditional.

#### In-Kind Contributions

In addition to receiving cash contributions, the Foundation receives in-kind contributions of services, software licensing, books, livestock and equipment from various donors. It is the policy of the Foundation to record the estimated fair value of certain in-kind donations as an expense in its financial statements, and similarly increase contribution revenue by a like amount. For the year ended June 30, 2013, \$3,682,666 was received in in-kind contributions.

### Real Estate and Equipment

Buildings, improvements and equipment are recorded at cost and depreciated over the estimated useful life of each asset. Annual depreciation is computed using the straight-line method. Real estate and equipment includes tenant remodeling improvements of \$74,695 and equipment of \$442,208.

### Valuation of Gifts of Property

Gifts of real and personal property are reported at their estimated fair value as of the date the property is received. Fair value is determined either by a staff member of the University with expertise in the valuation of the particular property, or by appropriate documentation furnished by the donor.

#### Income Tax Exempt Status

The Foundation is exempt from income taxes under section 501(c)(3) of the Internal Revenue Code; however, the Foundation is subject to federal income tax on any unrelated business taxable income. The Foundation files tax returns in the U.S. federal jurisdiction. With a few exceptions, the Foundation is no longer subject to U.S. federal examinations by tax authorities for years before 2010.

# Notes to Financial Statements June 30, 2013

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, gains, losses and other changes in net assets during the reporting period. Actual results could differ from those estimates.

#### **Comparative Amounts**

The financial statements include certain prior year summarized information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended June 30, 2012, from which the summarized information was derived.

### Functional Allocation of Expenses

The costs of supporting the various programs and other activities have been summarized on a functional basis in the statement of activities. Certain costs have been allocated among the program and support services categories based on various methods.

#### Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

### Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices); Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

### Note 2: Pooled Investments

Funds treated as endowment by the Foundation are managed as a pooled investment fund. This pool includes funds from the unrestricted, temporarily restricted and permanently restricted net asset classes. The various subsidiary accounts purchase shares in the investment pool when additions are received. The investment pool is operated on a unit market basis. The following schedule summarizes data related to the investment pool for the year ended June 30, 2013:

Pooled investments at market value	\$ 66,224,625
Number of pool shares	287,321
Market value per pool share	\$ 230
Fiscal year return	9.7%
Interest and dividend earnings	\$ 86,008
Net gains	\$ 5,805,048

# Notes to Financial Statements June 30, 2013

#### Note 3: Endowment

The Foundation's endowment consists of approximately 950 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the governing body to function as endowments (board designated endowment funds). As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with endowment funds, including board-designated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Foundation's governing body has interpreted the State of Missouri Prudent Management of Institutional Funds Act (SPMIFA) as requiring preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of donor-restricted endowment funds is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1. Duration and preservation of the fund
- 2. Purposes of the Foundation and the fund
- 3. General economic conditions
- 4. Possible effect of inflation and deflation
- 5. Expected total return from investment income and appreciation or depreciation of investments
- 6. Other resources of the Foundation
- 7. Investment policies of the Foundation

The composition of net assets by type of endowment fund at June 30, 2013 was:

	Un	restricted	emporarily Restricted	ermanently Restricted	Total
Donor-restricted endowment funds Board-designated endowment funds	\$	(34,221) 2,990,433	\$ 21,059,850	\$ 44,982,700	\$ 66,008,329 2,990,433
Total endowment funds	\$	2,956,212	\$ 21,059,850	\$ 44,982,700	\$ 68,998,762

# Notes to Financial Statements June 30, 2013

Changes in endowment net assets for the year ended June 30, 2013 were:

	Ur	restricted	emporarily Restricted	ermanently Restricted	Total

Contributions				2 014 006	2 014 006
Contributions		-	-	3,814,986	3,814,986
Other income		30,735	16,934	62,090	109,759
Appropriation of endowment assets					
for expenditure		-	(3,615,668)	-	(3,615,668)
Other additions		3,950	201,905	-	205,855
Endowment net assets,	_				<b>.</b>
end of year	\$	2,956,212	\$ 21,059,850	\$ 44,982,700	\$ 68,998,762

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level the Foundation is required to retain as a fund of perpetual duration pursuant to donor stipulation or SPMIFA. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets and aggregated approximately \$34,000 at June 30, 2013. These deficiencies resulted from unfavorable market fluctuations that occurred shortly after investment of new permanently restricted contributions and continued appropriation for certain purposes that was deemed prudent by the governing body.

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs and other items supported by its endowment while seeking to maintain the purchasing power of the endowment. Endowment assets include those assets of donor-restricted endowment funds the Foundation must hold in perpetuity or for donor-specified periods, as well as those of board-designated endowment funds. Under the Foundation's policies, endowment assets are invested in a manner that is intended to produce results that exceed the endowment's financial requirement over time, while assuming a moderate level of investment risk. The Foundation expects its endowment funds to provide a rate of return between 6.7% and 9.7% annually over time. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate of return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both current yield (investment income such as dividends and interest) and capital appreciation (both realized and unrealized). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

# Notes to Financial Statements June 30, 2013

The Foundation has a policy (the spending policy) of appropriating for expenditure each year 5.7% of its endowment fund's average fair value over the prior 36 months through the month end preceding the month in which expenditure is planned. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment to grow at a rate of 1% to 4% annually. This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

#### Note 4: Investments and Investment Return

Investments in equity securities and debt securities are carried at fair value. All other investments are valued at estimated fair value. The estimated fair value of investments in hedge funds, where a readily determinable market price is not available, has been estimated using the net asset value per share of investments. Investment income and gains that are restricted by donor stipulation are initially included in temporarily restricted net assets. When the restriction is satisfied, temporarily restricted net assets are reclassified to unrestricted net assets. Other investment income, gains and losses are reflected in the statement of activities as unrestricted, temporarily restricted or permanently restricted based upon the existence and nature of any donor or legally imposed restrictions.

While the Foundation does not invest directly in derivative securities, it does, through investment holdings with various money managers, indirectly hold these securities. The Foundation has significant investments in marketable securities, which are subject to price fluctuation. These instruments could potentially subject the Foundation to significant concentrations of market risk. This risk is controlled through a diversified portfolio and regular monitoring procedures.

Investments are summarized as follows:

Accrued income	\$ 53,989
Money market accounts	436,755
U.S. equity mutual funds	17,014,350
Non-U.S. equity mutual funds	18,793,361
U.S. fixed income mutual funds	14,262,654
Non-U.S. fixed income mutual funds	2,040,387
Other mutual funds	7,748,488
Real estate funds	1,284,792
Hedge funds	3,978,783
Private equity	1,178,173
Other	 3,500
	\$ 66,795,232

# Notes to Financial Statements June 30, 2013

Investment return consists of the following:

Investment income	\$ 175,072
Net realized and unrealized gains on investments	
reported at fair value	 5,813,134
	\$ 5,988,206

Investments held in trust are deposited with U.S. Bank Institutional Trust, Benjamin F. Edwards & Co., and Bank of America, N.A. or are in municipal bonds and other investments.

Investment expenses incurred for the year ended June 30, 2013, totaled \$117,600.

### Alternative Investments

The fair value of alternative investments has been estimated using the net asset value per share of the investments. The investment strategies and any redemption restrictions are disclosed in *Note 13*. Alternative investments held at June 30 consist of the following:

	Fair Value	June 30, 2013 Unfunded Commitments	Redemption Notice Period

# Notes to Financial Statements June 30, 2013

### Note 5: Related Party Transactions

The Foundation receives administrative support from the University without charge. The value of these services is not recorded as revenues or expenditures by the Foundation. The University pays the Foundation for space occupied by various University departments within the Kenneth E. Meyer Alumni Center. Rental payments for the year ended June 30, 2013, were \$451,945 and are included in rental income. Pledges payable, accounts payable and accrued expenses include \$1,361,197 due the University at June 30, 2013.

In 1982 the University's Board of Governors authorized the transfer of its endowment fund of \$199,762 to the Foundation for management purposes. This balance is shown on the Foundation's statement of financial position as funds managed for Missouri State University. All investment earnings from these funds have been recorded in the accounting records of the Foundation. All endowment additions since 1982, including gifts, student fees designated for endowment, and other income, have been recorded in the Foundation accounting records.

#### Note 6: Other Assets

#### Investments Held for Resale

Investments held for resale consist of tangible personal property and publicly traded common stock which are carried at the fair value as of the date received. These investments totaled \$123,126 at June 30, 2013.

#### Real Estate Held for Resale

Real estate held for resale consists of property donated to the Foundation, which is carried at the fair value as of the date of the gift, unless the fair value has declined subsequent to that date. This property totaled \$301,382 at June 30, 2013.

## Note 7: Split-Interest Agreements, Annuities and Trusts

The Foundation is one beneficiary of a perpetual split-interest trust which is held by others. The fair value of the Foundation interest in the trust at June 30, 2013, is \$90,107. The income received by the Foundation from this trust was \$18,228 for this fiscal year. The Foundation also is the beneficiary of three charitable remainder trusts with a fair value at June 30, 2013, of \$699,055.

The Foundation has entered into annuity agreements with various individuals whereby the annuitants have given certain assets to the Foundation on the condition that the Foundation pay stipulated amounts periodically to the annuitants during their lifetime. Any assets remaining upon the death of the annuitants become the property of the Foundation and available for its use, subject to the restrictions of the annuity agreement, if any. The Foundation recognized \$2,921 in contribution revenue under these agreements during the year ended June 30, 2013.

# Notes to Financial Statements June 30, 2013

The annuity obligation at June 30, 2013, of \$256,922 was calculated over the terms of the agreements based on the rates for government securities with similar maturities.

## Note 8: Pledges Receivable

Pledges receivable are a credit risk to the extent donors choose not to complete their pledge payments. Discount rates ranged from .24% to 2.42%. Pledges receivable consist of the following unconditional promises to give at June 30, 2013:

Due within one year	\$	6,670,944
Due in one to five years		15,853,014
Due in more than five years		27,925,427
		_
		50,449,385
Less: Allowance for doubtful accounts		286,827
Unamortized discount		13,418,476
		13,705,303
	\$	36,744,082
	_	
Pledges are included in the following net asset classification:		
Temporarily restricted	\$	34,003,427
Permanently restricted		2,740,655
	\$	36,744,082

#### Note 9: Leases

Noncancelable leases for space in the Kenneth E. Meyer Alumni Center expire in various years through 2018. Several of these leases contain renewal options for periods ranging from one to three years. Future minimum lease income at June 30, 2013, is as follows: 2014-\$578,364; 2015-\$26,756; 2016-\$9,673; 2017-\$9,360; 2018-\$3,120.

# Notes to Financial Statements June 30, 2013

### Note 10: Temporarily Restricted Net Assets

Temporarily restricted net assets at June 30, 2013, are available for the following purposes:

Any purpose, time restricted	\$	69,154
Instruction and academic program support	1.	5,238,594
Student services		3,214,925
Institutional support	33	3,919,334
Scholarships	1′	7,304,331
Broadcast services		2,448,032
	\$ 72	2,194,370

### **Note 11: Permanently Restricted Net Assets**

Permanently restricted net assets at June 30, 2013, are restricted to investments in perpetuity, the revenue from which is expendable to support:

Instruction and academic program support	\$ 15,135,586
Student services	731,138
Institutional support	1,561,135
Scholarships	28,037,471
Broadcast services	83,732
	\$ 45,549,062

## Note 12: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Approximately 65% of the net pledges receivable balance outstanding at June 30, 2013, was due from one contributor.

Approximately 13% of the total contributions received in 2013, came from one contributor.

The Foundation invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying statement of financial position.

# Notes to Financial Statements June 30, 2013

### Note 13: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- **Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

### Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statement of financial position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2013.

			Fair Value Measurements Using					
		Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
Money market accounts	\$	436,755	\$	436,755	\$	_	\$	_
U.S. equity mutual funds		17,014,350		17,014,350		-		-
Non-U.S. equity mutual funds		18,793,361		18,793,361		_		-
U.S. fixed income mutual funds		14,262,654		10,142,259		4,120,395		-
Non-U.S. fixed income mutual funds		2,040,387		2,040,387		-		-
Other mutual funds		7,748,488		1,811,418		1,602,594		4,334,476
Real estate funds		1,284,792		-		-		1,284,792
Hedge funds		3,978,783		-		3,978,783		-
Private equity		1,178,173		-		-		1,178,173
Other		3,500		3,500		-		-
Investments held in trust:								
Mutual funds		434,870		434,870		-		-
Other		354,292		264,185		_		90,107
	\$	67,530,405	\$	50,941,085	\$	9,701,772	\$	6,887,548

# Notes to Financial Statements June 30, 2013

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statement of financial position, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2013. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

#### Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include money market funds, equity securities and mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include mutual funds, hedge funds, and municipal bonds. Inputs used to value Level 2 securities include interest rates for similar debt securities and Treasury obligations with similar maturities and net asset values provided by funds as a practical expedient. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include mutual funds, real estate funds and private equity funds. The net asset value (or its equivalent) provided by the fund is utilized, as a practical expedient, to determine fair value of these Level 2 and Level 3 investments. The funds are classified as Level 3 if they may not be redeemable in the short-term. More information about each investment valued using net asset value as a practical expedient is as follows:

Mutual funds – This category is an investment in a fund that is a "feeder" fund in a "master-feeder" structure whereby the fund invests substantially all of its assets in the master fund. The master fund pursues its investment objectives by allocating its capital among various portfolio managers through investments in collective investment vehicles and individually managed accounts. The investee funds may engage in the trading of equity and debt securities of U.S. and non U.S. corporations, U.S. government securities, non U.S government securities, futures contracts, options, options on futures, other derivatives including swaps, forward contracts, currencies and physical commodities, partnership interests, money market instruments and derivatives on securities. Investments can be redeemed with 100 days written notice as of the last business day of any calendar year unless redemption requests represent more than 25% of the fund's net assets in which case the requests would be honored pro rata.

Hedge funds – This category includes investment in a hedge fund whose objective is to generate consistent long-term capital appreciation with low volatility and little correlation with the equity and bond markets through a portfolio having a diversified risk profile. The fund's ability to satisfy redemption requests is largely contingent upon its ability to redeem assets from private investment funds. Redemptions could generally be made as of the end of any calendar quarter upon 90 days prior to written notice to the Administrator.

Real estate funds – This category is an investment in two different real estate investment trusts (REITs), which are invested in real estate for current income or capital appreciation or both. All or a portion of shares can be redeemed on a quarterly basis by giving written notice at least 60 days prior to the end of the quarter. However, both funds have currently stopped investor liquidations until further notice.

# Notes to Financial Statements June 30, 2013

Private equity – This category includes three funds that operate as "fund of funds" investment vehicles that seek to realize long term returns in excess of those available through conventional investments primarily by investing in a diversified group of closed-end private funds focused on investment partnerships.

#### Investments Held in Trust

Fair value is estimated at the present value of the future distributions expected to be received over the term of the agreement. Due to the nature of the valuation inputs, the investments are classified as Level 1, Level 2 and Level 3 of the hierarchy. The Level 3 investments are the Foundation's beneficial interest in trusts. Fair value is determined based on the market value of the securities held in the trusts and the Foundation's proportional beneficial interest.

#### Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statement of financial position using significant unobservable (Level 3) inputs:

		Mutual Funds		eal Estate Funds	Private Equity	Investments Held in Trust Other	
Balance July 1, 2012	\$	3,942,670	\$	1,168,797	\$ 1,081,903	\$	95,698
Total realized and unrealized gains and losses included in							
change in net assets		391,806		115,995	84,045		(5,591)
Purchases		-		-	178,574		-
Settlements		_		_	(166,349)		
Balance June 30, 2013	\$	4,334,476	\$	1,284,792	\$ 1,178,173	\$	90,107

#### Fair Value of Financial Instruments

The following method and assumptions were used to estimate the fair value of all other of financial instruments recognized in the accompanying statement of financial position at amounts other than fair value.

### Cash and Cash Equivalents and Accounts Receivable

The carrying amount approximates fair value.

# Notes to Financial Statements June 30, 2013

### Pledges Receivable

The carrying amount is a reasonable estimate of fair value as described in *Note 8*.

### Annuities and Trusts Payable

Fair values of the annuity and trust obligations are based on the present value of the estimated annuity or other payments under such obligations.
