The online platform houses benefit information as well as your personalized enrollment elections.

When coverage begins: Coverage requires enrollment and enrollment must be completed within 30 days of hire. Coverage for new employees becomes effective on the first day of the month following the first date of employment. Coverage ends on the last day of the month following termination. (Example: hire date May 10 would have coverage effective June 1). Medical and dental coverages are paid advance; enrollment timing and payroll periods could result in multiple deductions on your first paycheck.

Changes outside of new hire period- Open enrollment for benefit eligible staff and faculty is held annually in the fall. Open Enrollment is the period during which you can elect/decline/or make changes to your medical/dental/vision and Cafeteria plan benefits for the upcoming calendar year. After your new hire period changes can only be made at open enrollment, or within **31 days of a qualified event**.

Medical and Prescription Drugs – Employees have the choice of two (base and buy-up) PPO plan options. Plans are self-funded and administered by Med-Pay, Inc a third-party administrator. Both plans feature 100 % coverage on preventive care and reduced cost with utilization of Mager’s Health and Wellness Center. Second tier benefits are provided for services rendered with Mercy Health Plans PPO participating providers. Third tier available for out of network providers. We encourage employees to review the medical plan and compare the plan options. Missouri State University pays a significant portion of employee premiums for Health Insurance. Employee’s may also participate in the annual wellness incentive to earn up to an additional \$30 per month savings. **Employee’s whose employment begins on or after September 1st will receive the wellness discount for the remainder of the calendar year and the following calendar year to provide the employee an opportunity to participate in the wellness activities.*

On-campus clinics: Utilization of On-Campus clinics will provide employees with the highest level of savings under both PPO plans.

Clinics include:

- Mager’s Health & Wellness Center
- Speech & Hearing Clinic
- Mager’s Pharmacy
- Learning Diagnostic Clinic
- Physical Therapy clinic
- Center City Counseling Center

Prescription drug coverage – Prescription drug coverage is included as part of the base and buy-up medical plans. Mager’s Health and Wellness Center Pharmacy is an Elixir preferred provider. Save an additional 10% by utilizing the Mager’s pharmacy over other In-network pharmacies. Both base and buy-up plans participate in the following RX programs:

Generic Incentive – Covered expenses are limited to the cost of a generic drug if an equivalent generic drug is available when a multi-source brand name drug is dispensed. In addition to the coinsurance, the covered person must pay the difference between the cost of the generic drug and the multi-source brand name drug. This is a significant increase in the incentive to use generic drugs when available and has been necessary to reduce unnecessary pharmaceutical costs to the health plan.

Step Therapy - This program requires you to try a particular drug that is cheaper before you can move to a more expensive choice. However, if you have already tried the cheaper drug without benefit, you will not have to try it again if you obtain documentation from your doctor.

Declination of Medical coverage: Employees may decline the University’s medical plan. Under the Affordable Care Act, Employees may choose to purchase plans on the Health Insurance Marketplace also known as the Health Insurance Exchange. Re-enrollment is allowed only during open enrollment or within 30 days of a qualifying life event.
