

Instructional Technology Advisory Committee 2018 Quarterly Report

Classroom High-Density Wireless Expansion Project

- ITAC looked at multiple criteria to evaluate wireless usage and coverage for academic buildings that had older model Juniper wireless access points
- The committee also worked with stakeholders to identify and prioritize buildings to be upgraded
- A total of 224 access points were installed in the following 12 buildings
 - Art Annex, Brick City 1, Carrington, Craig, Karls, Kemper, Kings Street, McDonald, McQueary, Sicheluff, Temple and Wehr
 - Large classrooms and other special needs locations are being identified to further improve wireless service

Using Classroom Projectors for Emergency Notifications

- After review it was determined that ITAC was not the appropriate group to complete this charge

Completed Projects

- Glass Hall renovation and addition (funded by College of Business)
 - Selective updates in Glass 0101, 0102, and 0108
 - Installation of 5 new classroom spaces
 - Executive Board Room
