

IT Council Minutes CARR 203- 9/8/10

Members Present: Steve Robinette, D.G. Rainwater, Carey Adams, Tammy Jahnke, Jeff Morrissey, Ken McClure, Earl Doman, and Rebecca Woodard (left early)

Absent: John Maddux, Kevin Piercy

Guests: Mark Harsen

IT Council Organization

Steve discussed the IT Council and the organization of membership. The IT Council page on the MSU website is not updated regarding membership but will be soon. The page contains information regarding membership, the purpose of the council, and what the council is working towards.

FY 2011 GA Budgets (handout)

Greg discussed the SCUF GA pay and e-mail from Sue McCrory. Sue requested a revised budgetary allotment for the GA due to a possible pay rate increase for GA's. Tammy made a motion that the committee funds the computer literacy GA at the higher amount. Other increase as per the schedule handout with the exception of computer services GA wages, which will not be increased. Increase is to be funded out of the FY 2011 SCUF reserves. Earle seconded the motion- motion passed unanimously.

Missouri State Bandwidth

Mark Harsen discussed the process of putting residence halls on a completely separate network. He stated that they were on track with what they expected except for security appliances. Residence life has given tentative approval for an investigation into security appliances. They have the prices, now they need to confirm with residence life then go to the president and discuss funding. Funding will pay for membership fees, maintenance, and bandwidth. There will be more information to review at the next meeting.

BearPrint up-date

There has been a substantial paper savings due to the implementation of BearPrint (40% reduction in printing- 3,000,000 pages a year.) Jeff discussed the BearPrint website which lists the printing allotment overview, keeping track of printing allotment, which printers are part of BearPrint, and tips to save paper. Printing is now monitored in dollars instead of number of prints to make it possible to provide more options to students. Students also have the option to purchase more printing via pre-paid BearPrint allotment cards at the bookstore. They are sold in \$4 increments (50 black and white pages.) Color printing will be available in the open access labs in September (cost to be determined.) Tammy asked for information to be sent to her regarding paper savings so that it can be posted to the website. It was also suggested that paper savings be discussed during the breakfast presentation.

Meeting adjourned at 3:55 p.m.

Respectfully submitted by,
Jaime Ross
Administrative Assistant II
Office of the Provost
