

Missouri State University - **Distance Education Committee Meeting**

October 10, 2022, Meeting Minutes

Meeting minutes from September 12, 2022, were approved by the committee.

Brandon Decker reviewed the Online Student Survey Results from SP22 in a PowerPoint presentation. Several suggestions were made for changes to emphasize positive results. Adding a current headcount of students in graduate and undergraduate programs was recommended. The desire for flexibility continues to be a main factor for student enrollment for online courses and programs. The survey results will be shared with the Provost when a meeting can be arranged.

Further review and updates to the survey questions are planned for the SP23 survey.
