

# Save yourself from PASSWORD PANIC

Do this now...

- ① Visit [MissouriState.edu/Account](https://MissouriState.edu/Account) and select **Check or Update Your Security Information**.
- ② Set up **at least two** of the following account security methods. We recommend all three.
  - Microsoft Authenticator App
  - Phone
  - Non-University Email Address

IMPORTANT: Make sure this is an email and phone that the **student** has access to.
- ③ The next time you forget your password or are locked out of your account for too many failed login attempts, go to [MissouriState.edu/Account](https://MissouriState.edu/Account) and select **Unlock Your Account**. That was easy!

Relax...No more password panic!

Need technology help?

Visit the IT Service Portal at [MissouriState.edu/HelpDesk](https://MissouriState.edu/HelpDesk).

The IT Service Portal is your one-stop site for questions, issues, and information about technology at Missouri State University. Find step-by-step guides, chat with a technician, or put in a technology service request all from the IT Service Portal at [MissouriState.edu/HelpDesk](https://MissouriState.edu/HelpDesk).
