

My Ideas Committee  
May Meeting

- Chair asked Allie if the My Ideas Poster was sent out through e-mail to all staff as they had hoped it would be able to. He (and the rest of the committee) said they do not remember seeing an e-mail with it. Allie said she would ask at the next Staff Senate meeting (or now 😊)
- Heard follow-up on two ideas presented to the committee. Both ideas are already being looked at by the University so the committee decided not to present them further.
  - **Elimination of Paper PAF in Favor of Electronic Version** – HR is working on this currently
  - **ADP Format Change** – HR looking into it already
- Discussed two new ideas presented to the committee. Both ideas are being investigated by the committee before being presented further.
  - **Saving the University Money by Using Product Warranties** – Idea primarily focused on light ballasts. Committee wanted to contact Facilities Maintenance to discuss cost savings and get a better idea of where this suggestion is coming from.
  - **Pharmacy Inventory Cost Savings** - Committee thought this idea is a good one, but a committee member thought this was already being looked into by internal audit. Committee wanted to contact both areas to see the status of this.
