

FREE SUSTAINABILITY ASSESSMENTS

FOR MISSOURI MANUFACTURERS

PROGRAM DESCRIPTION

The Missouri State University (MSU) Sustainability Program's **POLLUTION PREVENTION PROJECT (P2 PROJECT)** looks at your whole manufacturing operation to uncover sustainable opportunities to reduce waste, conserve energy, and save money. The program engages MSU and Missouri S&T students to participate in assessments and provide an experiential learning opportunity. Our process includes:

BENEFITS TO YOUR COMPANY

The Pollution Prevention assessment can reduce your business costs, energy costs, water consumption, wastewater generation, hazardous materials, and emissions, which:

- promotes sustainable manufacturing and growth,
- improves profitability and competitiveness,
- reduces environmental impacts while gaining a competitive advantage, and
- increases capacity to attract new business.

INCREASED

- + profitability, productivity, competitiveness
- + recycling and/or diversion of by-products

REDUCED

- operating costs
- water use, energy, and materials
- waste volume and/or toxicity
- emissions (VOC, HAP, & GHG)
