Important notes about this MSU major

- Psychology is a non-comprehensive major which must be accompanied by a minor or second major.
  - Minors commonly chosen to accompany the psychology major are as numerous as the subfields within psychology. Students should select a minor which will best prepare them to attain future educational and career goals. For more information about minor requirements, students may wish to consult with a MSU academic advisor in the department that offers a minor of interest.
  - When a second major is chosen, it is typically non-comprehensive and requires fewer credit hours than a comprehensive major. Interested students may wish to investigate MSU major requirements in other areas to choose lower division OTC coursework which may count toward a second major.
- Completion of MSU’s PSY 150 Introduction to the Psychology Major is required for admission to the psychology degree program. Will be taken at MSU as there is not an equivalent course at OTC.
- While you are encouraged to transfer after completing the 42-hour General Education Core (CORE 42), you may earn your AA degree through a Reverse Transfer. For more information on the Reverse Transfer, go to [www.missouristate.edu/transfer/reversetransfer.aspx](http://www.missouristate.edu/transfer/reversetransfer.aspx).
- Students may pursue a Psychology Bachelor of Science or Psychology Bachelor of Arts Degree. Consult the MSU transfer advisor to determine which degree is best aligned with your career goals. If choosing the Psychology BA degree, please see the Bachelor of Arts Transfer Degree Guide for additional course requirements.
- OTC students are strongly encouraged to meet with the MSU transfer advisor early in their OTC education to discuss the most appropriate OTC coursework for your intended MSU major, MSU degree requirements, etc.
- This information is provided as a guide. Students are required to fulfill MSU graduation requirements to receive a degree and should consult their MSU advisor and the MSU undergraduate catalog for
details. Note that a transfer student who remains continuously enrolled may follow MSU graduation requirements in effect when the student first enrolled at their transfer institution (OTC).
